**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Oklahoma Community Television, LLC ("OCT"), licensee of low power television translator K60CK, Channel 60, Sayre, Oklahoma. OCT holds an outstanding permit for K60CK (BDFCDTT-20091222ARM), authorizing a displacement to digital Channel 15.<sup>1</sup> This instant application seeks a license to cover the outstanding permit for K15HQ-D. Attached as Exhibit A is a calculation of the transmitter output power for the K15HQ-D transmitter.

There is one special operating condition or restriction on the K15HQ-D construction permit. The condition states that the permit is subject to the condition that low power television is a secondary service and must not cause interference to the reception of existing or future full service television stations on either NTSC or DTV channels and must accept interference from such stations. OCT acknowledges this condition.

OCT will also, in cooperation with other tower users, reduce the power of K30JP-D or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines. Based on the foregoing, it is believed K15HQ-D is operating pursuant to the Commission's rules.
