

## **Exhibit 8**

### **Special Operating Conditions**

#### **Special Condition 1**

Special Condition 1 Refers to the requirement for before and after measurements to AM station KUPL (Facility Identification Number 26926) to assure that no adverse affects to its nighttime directional pattern occurred as a result of the KVMX(FM) antenna installation.

Station KUPL(AM) is co-owned and operated by Infinity Radio License Inc. KUPL(AM) is currently operating under a STA due to extensive tower and antenna construction activity in the vicinity of the KUPL antenna array. At the completion of construction, the am array will be restored to licensed parameters.
