

Affidavit Certification and Qualifications of Supervising Engineer

In support of FCC Form 302

WWDL, Plainfield, IN, FCC File Number BPMED-20100518AAR

The facility specified in the underlying construction permit is constructed as permitted in the current construction permit FCC File Number BMPED-20100518AAR. I have overseen all aspects of the WWDL site and directional antenna assembly and installation. I certify that the transmission systems and antenna systems are constructed as permitted and specified in the proof of performance and the manufacturer's instructions. The ERI Model LP-1E-DA directional antenna system was installed exactly as ERI specified and the antenna orientation as specified by FCC permit and the manufacturer. The azimuth was verified by a Licensed Professional Surveyor in the State of Indiana. Successful equipment tests occurred on the afternoon of June 16, 2010. The surveyor's certification is attached in an exhibit.

I certify, under penalty of perjury that I am a Broadcast Engineer and am familiar with all aspects of the FCC regulations that concern this project. My credentials are a matter of record with the Federal Communications Commission.
