Re: KTCK(AM), Dallas, Texas  
Facility Identification Number: 8773  
Susquehanna Radio Corp.  
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed July 6, 2010, on behalf of Susquehanna Radio Corp. ("Susquehanna"). Susquehanna requests further extension of the special temporary authority ("STA") granted on April 11, 2008, to operate Station KTCK with parameters at variance and/or reduced power while maintaining monitor points within licensed limits.<sup>1</sup> In support of the request, Susquehanna states that it has obtained a construction permit to increase daytime power and that it expects to complete construction of the modified facilities within the next few months.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made substantial progress toward restoring licensed operation; thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KTCK may

---

<sup>1</sup> KTCK is licensed for operation on 1310 kHz with 9 kilowatts daytime and 5 kilowatts nighttime, employing different directional antenna patterns daytime and nighttime (DA-2-U). Application BP-20091116ADS proposes an increase in daytime power to 25 kilowatts.

continue to operate with parameters at variance and/or reduced power while maintaining monitor points within licensed limits. It will be necessary to further reduce power or cease operation if complaints of interference are received. Susquehanna must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **February 10, 2011**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller". The signature is fluid and cursive, with the first name "Charles" being the most prominent part.
