Special Temporary Authority (STA)  
BESTA-20171127ACI

Dear Mr. Danziger:

This is in reference to the request filed on November 27, 2017. Hoosier requests an extension of the STA granted on April 21, 2017, to continue operating with parameters at variance pending further action on BMML-20170817ABF.<sup>1</sup> In support of the request, we note that the application remains under review at this time.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and Hoosier may continue to operate with parameters at variance from licensed values pending further action on BMML-20170817ABF. Hoosier must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

---

<sup>1</sup> WIOU(AM) is licensed for DA operation on 1350 kHz with 5 kW day and 1 kW night, using different patterns.

This authority expires on **May 29, 2018.**

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a series of loops and a final flourish.
