## COMPREHENSIVE TECHNICAL EXHIBIT

**Application for Minor Modification of Construction Permit  
W69EK  
FCC File Number BNPTTL-20000829AWP  
EICB-TV East, LLC**

**Application for displacement into core of CP.** In addition to a request for displacement from out of core channel 69 to in core channel 35, the within filing seeks a change of location, ERP and antenna pattern. Its 74 dBu F50,50 contour is contained entirely within that of the the underlying construction permit.

**Contingent application.** This application is filed pursuant to §73.3517(a); the permission document is attached to this exhibit and by reference made a part hereof.

**Use of Unregistered Tower.** The application is on a 2.0 meter pole located on a church. The proposal was subjected to *Towair* analysis and found not to require registration with the FCC, thanks to being less than 6 meters above an existing building structure.

**Interference Analysis.** The following is submitted as an OET 69 Longley-Rice study exhibit for the above-captioned application as performed by the Techware, Inc. FCC interference analysis program on a Sun Blade computer.

- a. The facilities which exhibit contour overlap or short spacing and thus must be studied are:
- | FILE NUMBER | CALLSIGN AND LOCATION |
|-------------|-----------------------|
| NONE.       |                       |

Mr. Randall A. Weiss  
EICB-TV EAST & EICB-TV WEST  
406 Copeland Drive  
Cedar Hill, TX 75104

Mr. Weiss:

Pursuant to Section 73.3517(a) of the FCC's Rules and Regulations, Michael Mintz hereby consents to the filing by EICB-TV EAST of an application to modify the construction permit for Station W69EK, Ocean City, MD, File No. BNPTTL-20000829AWP.

This application should be filed in the name of EICB-TV EAST and be only contingent upon the grant of assignment application BALTTTL-20080414ABT.

Very truly yours,

  
Michael Mintz
