Re: Radio Broadcast Communications, Inc. (RBC)
WKHZ (AM), Easton, MD
Facility Identification Number: 11667
Special Temporary Authority (STA)
BESTA-20200731AAB

Dear Ms. Parris:

This is in reference to the request filed on July 31, 2020. RBC requests a further extension of the STA granted on November 1, 2007, to continue operating with parameters at variance to allow time to file the required FCC Form 302 application.¹ In support of the request, RBC stated that it plans to complete all remaining repairs in the upcoming months, followed by the filing of the application (to update all operating parameters).

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is **HEREBY GRANTED**, and RBC may continue to operate with parameters at variance and reduced power while maintaining monitor points within licensed limits. RBC must reduce power or cease operation if interference

¹ WKHZ is licensed for DA operation on 1460 kHz with 1 kW day and 0.5 kW night, using different patterns.

complaints are received, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See 47 CFR § 1.1310.* RBC must submit an e-mail to my attention to note the date the application was filed.

This authority expires on **February 12, 2021.**

Sincerely,

A handwritten signature in blue ink that reads "Joe Szczesny". The signature is fluid and cursive, with the first name "Joe" and last name "Szczesny" clearly legible.

Joseph Szczesny, Engineer
