

December 12, 2001

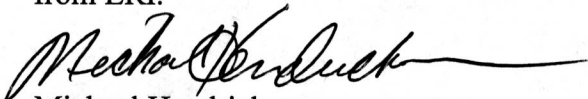

The antenna was installed under the supervision of Michael Hendrickson and Skeet Skaalen.

Michael Hendrickson has supervised the construction of various other AM and FM radio stations including KBLR-FM, Blair, NE (directional FM); KCTY-FM, Plattsmouth, NE; KUQQ (FM) (directional FM), Milford, IA; KIHK (FM), Rock Valley, IA and others. All applications have been found acceptable by the Commission.

He has been employed as a technical director by various radio stations since 1972. He has been employed by Waitt Radio, Inc. as technical director since 1999. Previous to employment by Waitt Radio he was employed by Hedberg Broadcasting Group from 1981 to 1999.

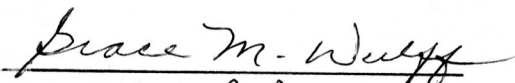

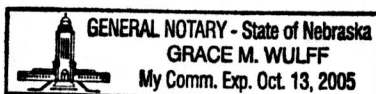

Skeet Skaalen supervised the actual installation of the antenna upon the tower under the direction of Michael Hendrickson. Skaalen has supervised the construction of various other radio stations since 1998, including KDBX-FM, Clear Lake, SD and KJJQ-AM, Brookings, SD. He has been employed as a regional engineer for Waitt Radio, Inc. since Jan. 1, 2000. Previous to employment by Waitt Radio he was employed by Sorenson Broadcasting from 1997 to 2000. He was employed by CGN Corporation from 1992 to 1997. He has a Bachelor of Science in Electronic Engineering Technology from South Dakota State University, Brookings, SD.

I certify that the installation of the antenna was done according to the instructions from ERI, the manufacturer of the antenna. ERI supplied both the antenna and the mounting brackets. The brackets were permanently marked to permit proper orientation of the antenna on an azimuth of 253.953 degrees true north. The parasitic elements were also installed according to instructions from ERI.

Michael Hendrickson
