Re: KRTZ (FM), Cortez, Colorado  
Facility Identification Number: 16435  
Winton Road Broadcasting Co. LLC  
Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed January 7, 2010, on behalf of Winton Road Broadcasting Co. LLC ("WRB"). WRB requests further extension of the special temporary authority ("STA") granted on July 17, 2006, to operate Station KRTZ with reduced power.<sup>1</sup> In support of the request, WRB states that installation of a replacement antenna has been delayed by uncertainties related to extension of the site lease.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has been prevented from restoration of licensed operation, due to causes beyond its control and has taken all possible steps to expeditiously resolve the problem. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KRTZ may continue to operate with reduced power. WRB must notify the Commission when licensed

---

<sup>1</sup> KRTZ is licensed for operation on Channel 254C (98.7 MHz) with effective radiated power of 27 kilowatts (H&V) and antenna height above average terrain of 884 meters.

operation is restored. WRB must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **July 12, 2010**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller".

Charles N. Miller, Engineer
