TECHNICAL STATEMENT

1. This technical statement and attached exhibits were prepared in support of a transfer of control application for stations KTCK, 1310 kHz, and KLIF, 570 kHz, Dallas, Texas; KPLX, Channel 258C, Fort Worth, Texas; KTDK, Channel 281C3, Sanger, Texas; KDBN, Channel 227C2, Haltom City, Texas; KGVL, 1400 kHz, and KIKT, Channel 228A, Greenville, Texas¹ and KYNG, 950 kHz, Denison-Sherman, Texas. KTCK, KLIF, KPLX, KTDK and KDBN are each authorized in communities within metro counties in the Dallas-Fort Worth, Texas Arbitron Market (Market #5). KGVL, KIKT and KYNG are licensed to non-metro counties outside the Dallas-Fort Worth, Texas market, and are not considered "home" to the market. As a result of the city grade overlap of the non-metro stations with some of the stations located in metro counties, a hybrid ownership analysis was conducted. The review will verify compliance of common ownership of metro stations in the same market under the Arbitron/BIA rated market rules, as well as, a revised contour overlap study involving the non-metro stations.

1) Station KIKT has an outstanding permit to upgrade to Channel 228C3 and change community of license to Cooper, Texas. The permit will also be considered in this instant analysis.

ARBITRON/BIA MARKET REVIEW

2. As shown on Exhibit #1, there are eighty-two AM and FM (commercial and non-commercial) stations listed in the Dallas-Fort Worth, Texas Arbitron Market. The Transferee would be in control of three FM and two AM stations in the market. The number of stations indicated falls in the forty-five or more stations tier of §73.3555(a)(1)(i) of the Commission's rules. At this level, common ownership or control of up to eight stations, with no more than five in the same service, is permissible. Therefore, the transfer of control of KTCK, KLIF, KPLX, KTDK and KDBN, in the Dallas-Fort Worth, Texas market, is believed to be in compliance with the Commission's radio ownership rules for rated markets.

REVISED CONTOUR OVERLAP ANALYSIS

2. Since KGVL, KIKT (licensed and permitted) and KYNG are non-metro stations, a study has, therefore, been conducted to verify that the proposed ownership of these facilities, in conjunction with those in the nearby Dallas-Fort Worth, Texas Arbitron market is in compliance with the Commission's multiple ownership rules. The city grade contours of these three stations, as well as those controlled by the transferee in the Dallas-Fort Worth, Texas market, are shown on Exhibit #2. As noted, the locations of the city grade contours of the non-metro stations create three distinct radio markets requiring review. Market #1 consists of AM stations KYNG, KLIF and KTCK and FM station KTDK. Market #2 consists of AM stations KGVL, KLIF and KTCK and FM station KIKT (licensed). Market #3 consists of AM station KGVL and FM station KIKT (permitted).

3. The contours of the subject stations in each of the relevant markets will be used to define the market boundary. Since the contour of station KGVL is a subject in both Market #2 and Market #3, its contour will be used to determine the number of other stations in those markets to which the subject stations will be added. No stations with transmitters located more than 92.0 kilometers from the boundary of the common overlap of subject stations will be considered. Further, no other facility controlled by the transferee will be considered as a market contributor, unless it is a subject station in the pertinent radio market under study.

4. Exhibit #3 is a depiction of the AM and FM stations (commercial and non-commercial) providing service to Radio Market #1 (KYNG/KLIF/KTCK/KTDK). Exhibit #4 is a tabulation of the stations in Radio Market #1; a total of nine is shown, including the four subject stations.² The number of stations depicted falls in the fourteen or fewer stations tier of 73.3555(a)(1)(iv) of the Commission's rules. At this level, common ownership or control of up to five stations, with no more than three in the same service, is permissible, provided the number of stations to be commonly held does not exceed 50% of the stations in the market. Based on this number of facilities, it has been herein demonstrated that Market #1 is in compliance with the Commission's rules.

5. Exhibit #5 is a depiction of the other AM and FM stations (commercial and non-commercial) providing service to Radio Markets #2 and #3 (based on the contour of station KGVL), which shows there are six other facilities. Exhibit #6 is a tabulation of the stations in

2) While there are many other stations contributing service to the market, they are not considered as there are sufficient stations based on the number of facilities to commonly held.

Radio Market #2; a total of ten is shown, including the four subject stations.³ Exhibit #7 is a tabulation of the stations in Radio Market #3; a total of eight is shown, including the two subject stations. The number of stations in Markets #2 and #3 falls in the fourteen or fewer stations tier of 73.3555(a)(1)(iv) of the Commission's rules. At this level, common ownership or control of up to five stations, with no more than three in the same service, is permissible, provided the number of stations to be commonly held does not exceed 50% of the stations in the market. Based on this number of facilities, it has been herein demonstrated that Market #2 and #3 are in compliance with the Commission's rules.

6. Based on the individual compliance shown in the rated and non-rated markets, the transfer of control of stations KTCK, KLIF, KPLX, KTDK, KDBN, KGVN, KIKT and KYNG is in compliance with the Commission's rules.

7. The foregoing technical statement was prepared by Graham Brock, Inc. All information contained herein is true and accurate to the best of our belief and knowledge. All data relating to AM and FM facilities in the relevant BIA/Arbitron market was determined using the BIA Financial Network, Inc. Media Access Pro, Version 4.0. BIA database. Technical data related to AM and FM facilities was extracted from the Commissions CDBS database. We assume no liability for errors or omissions in either database which may be adverse to the information contained herein.

3) See Footnote 2, supra.
