RE: Richland Towers, LLC Site Number 101  
site name i. d. no.  
Location: Nashville Tennessee  
City State

The information below was obtained from field measurements based on the existing location of the tower at or near ground level.

We state to the best of our knowledge, information and belief and in our professional opinion that the tower legs are oriented from the center of the tower the following directions:

The northernmost leg being N 00 degrees 51 minutes and 07 seconds W; The easternmost leg being S 61 degrees 14 minutes and 53 seconds E; and the westernmost leg being S 59 degrees 07 minutes and 51 seconds W. The horizontal directions given are expressed as bearings in degrees, minutes and seconds and are relative to True North.

Barge, Waggoner, Sumner and Cannon, Inc.
