**November 2008**

**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of WZEZ, Inc. ("WI"), licensee of radio station WZEZ, Channel 263A, Goochland, Virginia. WI holds an outstanding permit to make minor changes in the facilities of WZEZ (BPH-20060922ACV). WI herein submits a license application to cover the outstanding permit. A calculation of the transmitter power output of the WZEZ transmitter is attached as Exhibit A.

There is one operating condition/restriction on the WZEZ permit. The condition states that WI will reduce the power of WZEZ, or cease operation as needed, to insure that persons with access to the tower will not be exposed to radio frequency radiation levels in excess of the Commission's guidelines. WI will comply with this requirement. Based on the foregoing, it is believed that WZEZ is operating in compliance with the Commission's rules and that all conditions have been met.
