

Exhibit 12

Prepared by Guy Smith in connection with minor
change application of K264AN, Lubbock, TX.

Contour Overlaps

The K264AN 60 dBu contour is completely enclosed in the 60 dBu contours of both KONE(FM), Facility ID # 26519, and KMMX(FM), Facility ID # 86. No other prohibited contour overlaps exist. For reasons explained in Exhibit 13, interference to either station from K264AN is highly unlikely.
