

The map illustrates the Klamath River watershed, showing the proposed Klamath Dam and its impact on the watershed. The river network is shown in blue, and the watershed boundary is outlined in black. Major towns and communities are marked with black dots and labeled. The proposed dam is indicated by a red dot on the Klamath River. The map includes a scale bar (0 to 60 km) and a north arrow. The watershed is divided into several sub-watersheds, and the map includes a legend for the different types of land use and water bodies.
