

# **EXHIBIT 13**

## **Waiver Request of Section 74.1204**

Enka, NC W220CD

Minor Change

10 Watts ERP

Calvary Chapel of Twin Falls, Inc. 7/2010

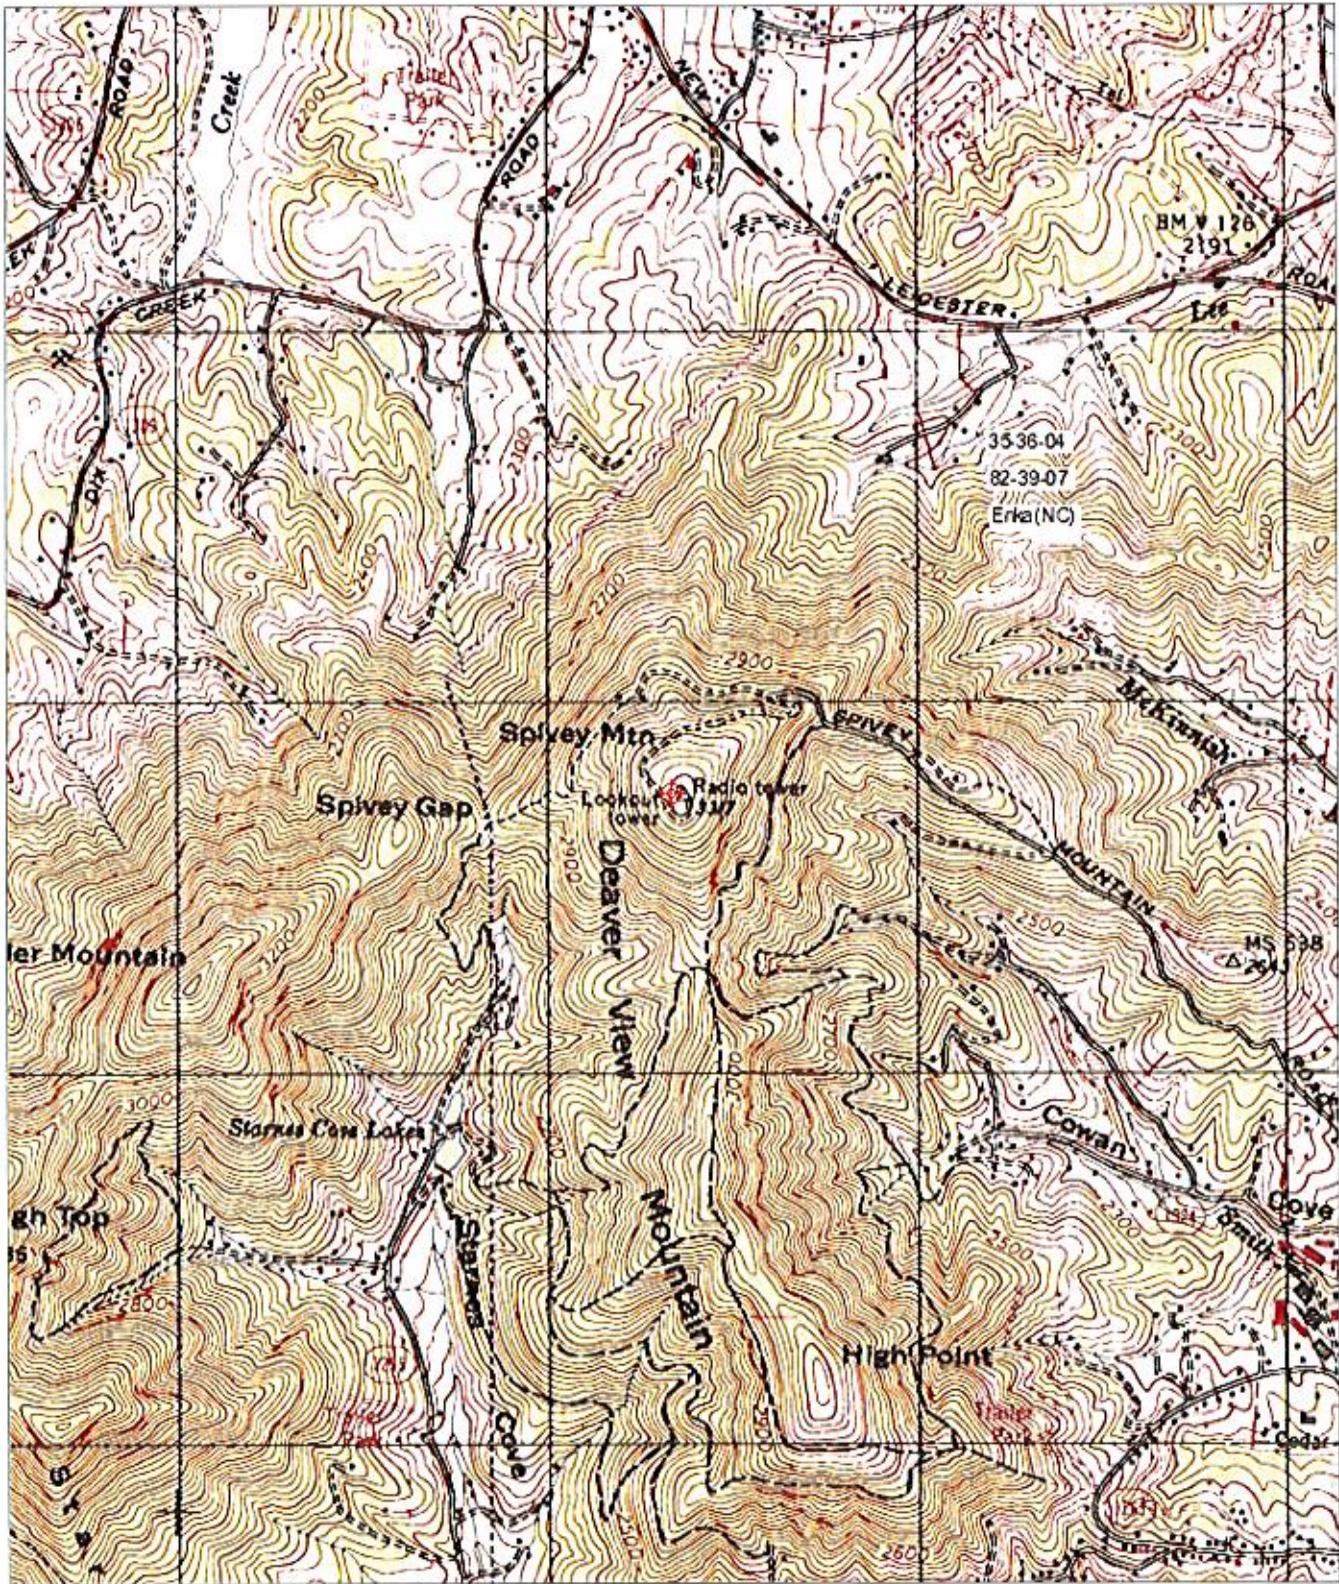

The proposed site is contained entirely inside the service contour of third-adjacent FM stations WLFA Asheville, NC and WESC-FM Greenville, SC

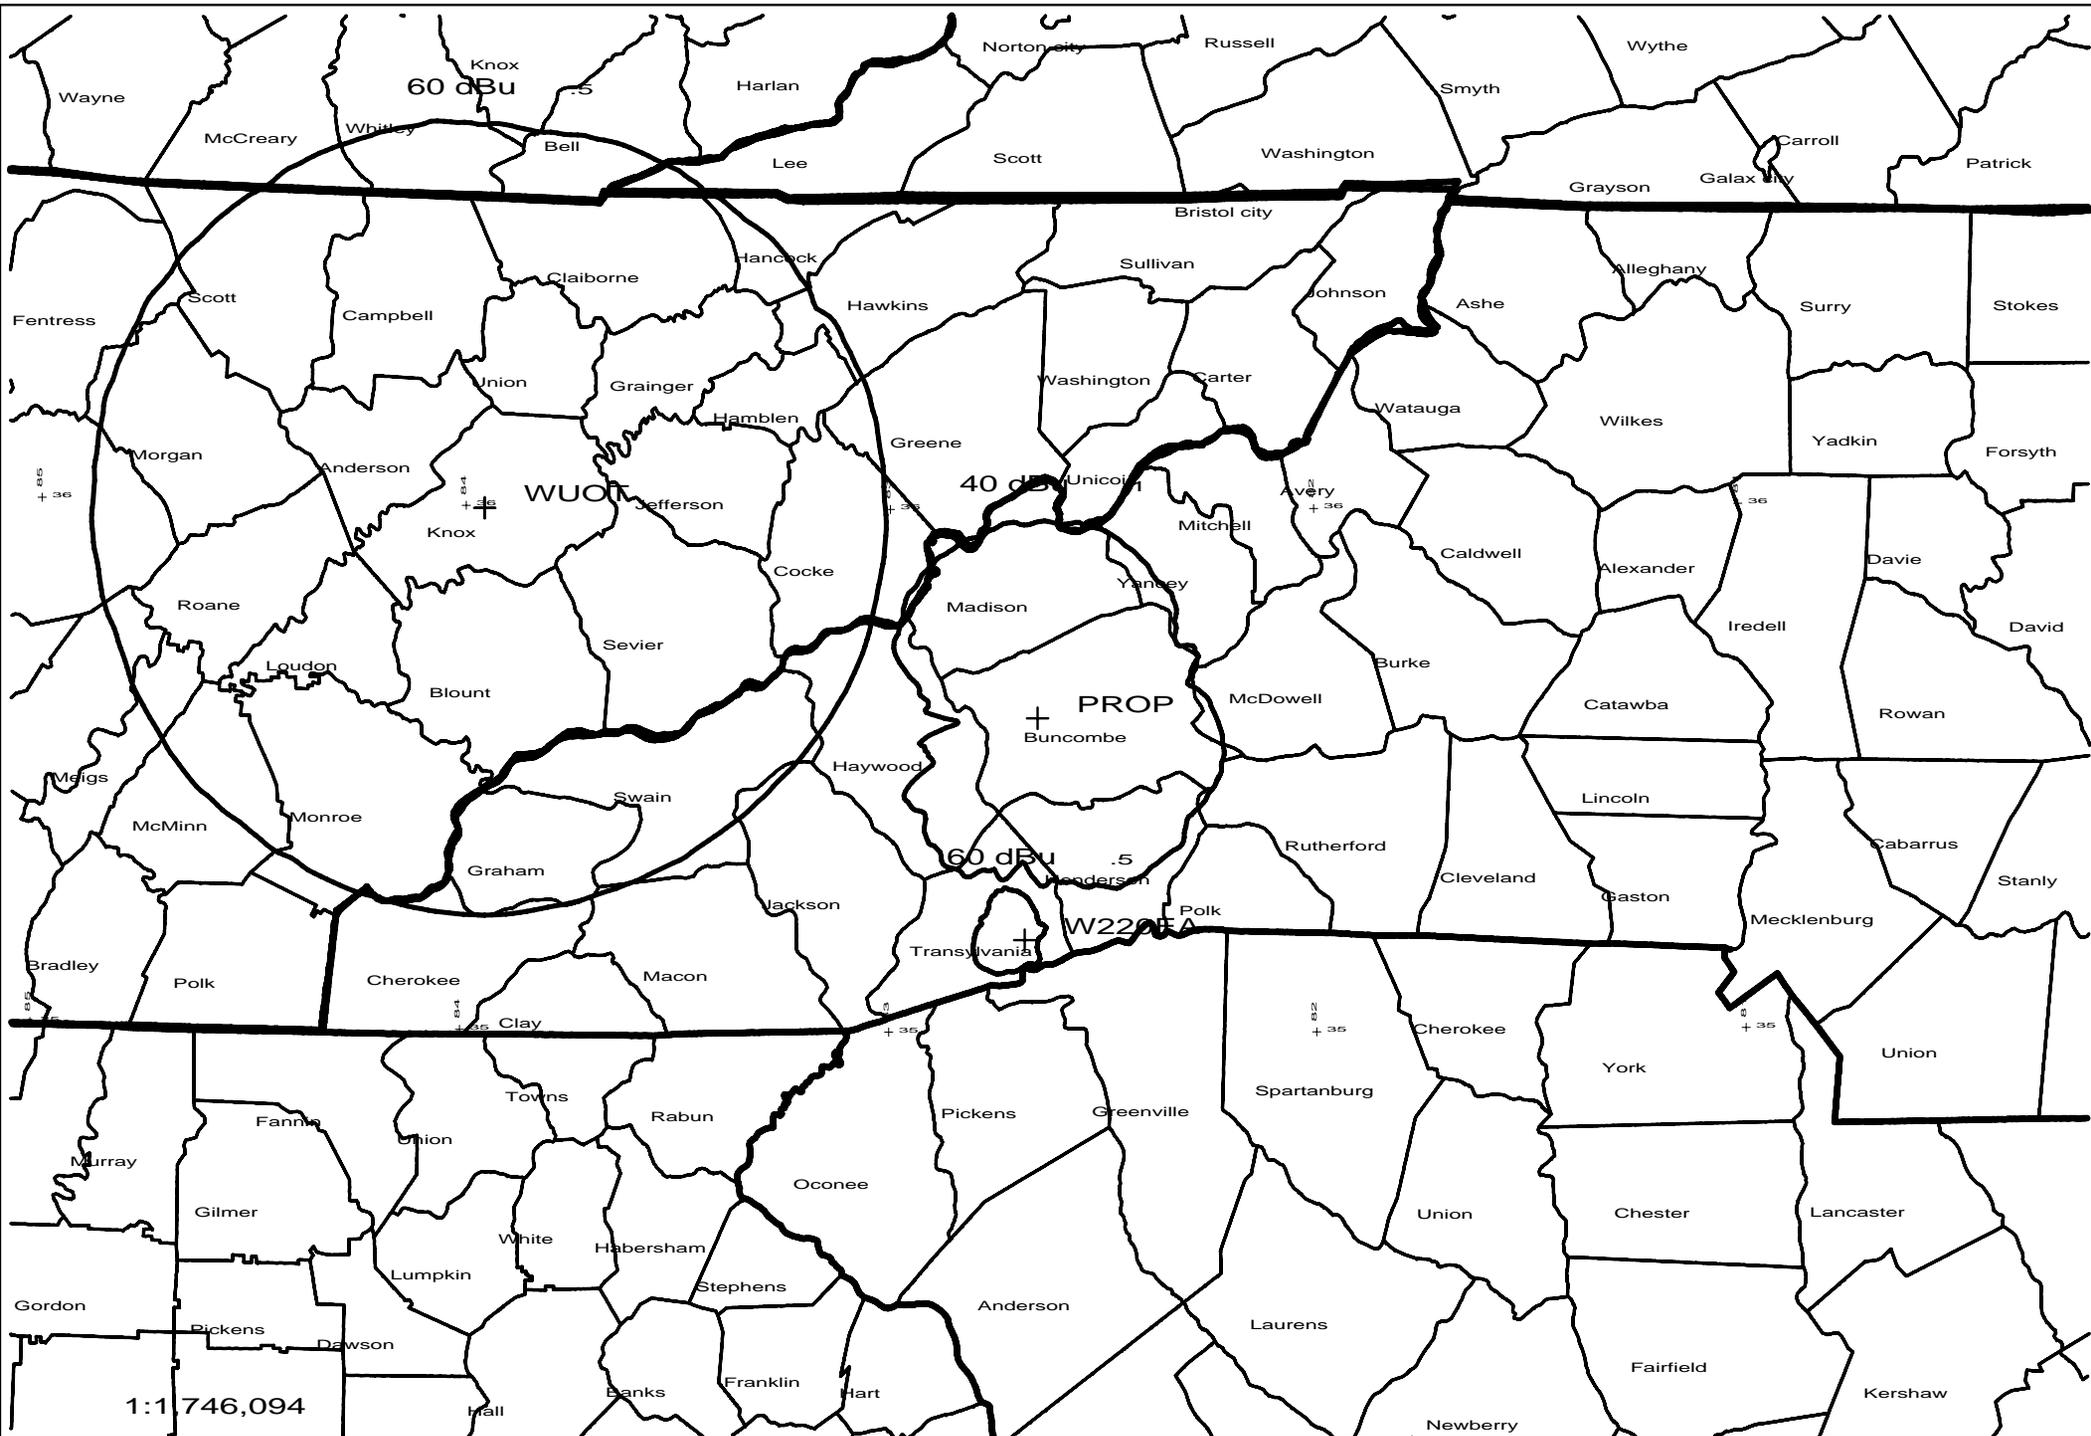

### **WLFA**

The proposed site is contained entirely inside the service contour of third-adjacent station WLFA, 217A, .440kW, Asheville, NC. The level of least arriving protected F(50,50) signal at the proposed transmitter site is 127.5-dBu. Using the Undesired-to-Desired method for calculating proposed interference, the interfering contour is in excess of 140-dBu (free-space contour method employed). The interfering signal would, in the worst case at the maximum radial, extend less than 1 meter from the center of radiation, which is proposed at 41 meters AGL. This interference contour does not touch the ground. This tower is located atop Spivey Mountain, at the end of Spivey Mountain Road. Attached is a section of the USGS ENKA (NC) Quadrangle which shows that this tower is not located near residences, businesses or any major roadways. Calvary Chapel of Twin Falls, Inc. respectfully requests a waiver of the FM translator contour overlap regulations with respect to third-adjacent channel station WLFA Asheville, NC.

### **WESC-FM**

The proposed site is contained entirely inside the service contour of third-adjacent station WESC-FM, 223C, 100kW, Greenville, SC. The level of least arriving protected F(50,50) signal at the proposed transmitter site is 75.3-dBu. Using the Undesired-to-Desired method for calculating proposed interference, the interfering contour is 115.3-dBu (free-space contour method employed). The interfering signal would, in the worst case at the maximum radial, extend 39 meters from the center of radiation, which is proposed at 41 meters AGL. This interference contour does not quite touch the ground. This tower is located atop Spivey Mountain, at the end of Spivey Mountain Road. Attached is a section of the USGS ENKA (NC) Quadrangle which shows that this tower is not located near residences, businesses or any major roadways. Calvary Chapel of Twin Falls, Inc. respectfully requests a waiver of the FM translator contour overlap regulations with respect to third-adjacent channel station WESC-FM Greenville, SC.
