Determination Results

[Printable Page](#)

*** NOTICE ***

Findings are not definitive or binding, and we cannot guarantee that the data in TOWAIR are fully current and accurate. In some instances, TOWAIR may contain findings that differ from application of the criteria set out in 47 C.F.R., Section 17.7 and 14 C.F.R., Section 77.13. A positive finding by TOWAIR does not mean that a notification should be given considerable weight. On the other hand, a finding by TOWAIR recommending either for or against notification is the responsibility of each ASR participant to exercise due diligence to determine if it must coordinate its structure with the FAA. TOWAIR is designed to assist ASR participants in exercising this due diligence, and further investigation may be necessary to determine if FAA coordination is required.

TERMINATION Results

Structure does not require registration. There are no airports within 8 kilometers (5 miles) of the coordinates you provided.

Structure Specifications

2083 Coordinates	Latitude	34-07-32.5 north
	Longitude	018-22-14.4 west
Measurements (Meters)		
Overall Structure Height (AGL)		25
Port Structure Height (AGL)		1
Elevation (AMSL)		389

Structure Type

T - Mast

Further Construction Notifications

Notify Tribes and Historic Preservation Officers of your plans to build a tower.
