RE: KKER antenna system

Dear Mr. Munsterman:

Please allow this letter to confirm that the KKER antenna system on 88.7 MHz has been constructed at the correct location and the orientation of the Electronics Research, Inc. (ERI) 8 bay directional antenna has been placed on the tower at the correct position complete with all of the ERI required elements and support braces. The placement of the antenna system is as per the specific ERI requirements and supplied ERI prints.

Texas Land Boundaries, the original site surveyor will provide the site location confirmation, as well as confirm that the south tower face is the tower face where the directional antenna is affixed.

Please let me know if you need any further information.

Sincerely,

A handwritten signature in black ink, appearing to read 'Bill Cordell', written in a cursive style.

William E. Cordell, P. E.
