

APPLICATION FOR STATION LICENSE
DOUBLE O CENTRAL NEW YORK CORPORATION
WSRK (FM) RADIO STATION
CH 280A - 103.9 MHZ - 1.4 KW
ONEONTA, NEW YORK
March 2006

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Double O Central New York Corporation ("Double O"), licensee of radio station WSRK, Channel 280A, Oneonta, New York. Double O also holds a permit to correct the coordinates and height of the WSRK facility (BPH-20050628AAU). This instant application seeks a license to cover the outstanding permit. Attached, as Exhibit A, is a calculation of the transmitter power output for the WSRK system.

There is one special operating condition or restriction noted on the permit. The condition notes that Double O will reduce power of the facility, in coordination with other users of the site, to allow tower access. Double O herein restates that it will, in cooperation with other tower users, reduce the power of WSRK or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines. Based on the foregoing, it is believed that the condition on the WSRK permit has been met.
