Re: Tyler Media L.L.C. (TML)
KOKC (AM), Oklahoma City, Oklahoma
Facility Identification Number: 73981
Special Temporary Authority (STA)
BESTA-20130214ABI

Dear Counsel:

This is in reference to the request filed February 14, 2013. TML requests extension of the STA originally granted on December 4, 2012, to operate station KOKC with parameters at variance from license values and/or reduced power while maintaining monitor points within license limits.¹ In support of the request, TML states that repairs to the antenna system continue.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for STA IS HEREBY GRANTED. Station KOKC may operate with parameters at variance from licensed values and/or reduced power while maintaining monitor points within licensed limits. It will be necessary to further reduce power or cease operation if complaints of interference are received. TML must notify the Commission when licensed operation is restored.² TML must use whatever means are necessary to protect workers

¹ KOKC is licensed for operation on 1520 kHz with a ND daytime power of 50 kW, and a nighttime DA power of 50 kW.

² See 47 CFR §§ 73.45(c), 73.51, 73.54, 73.61(b)

and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **September 18, 2013**.

Sincerely,

A handwritten signature in black ink, appearing to read 'J. Szczesny', with a large, stylized loop at the end.
