

**Qualified Engineer's Affidavit of Installation  
for Directional Antenna System at  
WXLK (92.3) Roanoke**

**File No. BPH-20110401AAC**

22 July 2011

This affidavit hereby certifies that, on 21 July, 2011, I oversaw the complete installation of the Dielectric/SPX DCRM-5EFE8OHD directional antenna system for WXLK. I certify herein also that the installation was carefully performed per the manufacturer's specifications and instructions, and also pursuant to the instant construction permit.

My qualifications include over four years of service as RF Systems Engineer for Mel Wheeler Inc., and more than ten years of service in the field of broadcast engineering for other companies, with a specific focus on transmission systems work. I have also worked for three years as a lab assistant for the Virginia Tech Antenna Group, Bradley School of Engineering, Virginia Polytechnic Institute and State University. I hold an Extra Class Amateur Radio license, where my primary independent research for the last seven years has been in VHF/UHF/SHF antenna system modeling, design, and fabrication.

Joshua M . Arritt

RF Systems Engineer, Mel Wheeler Inc.
