Yes, the licensee, Word Of God Fellowship, request that BMPDTL-201010909AAW be canceled so BPDTL-20120827AEL can be granted.

I have CC Mr. Marcus Lamb, President of Word OF God Fellowship, as proof that this is approved and requested by them.

Subject: W45CP-D - Facility 68044 - Licensee - Word of God Fellowship, Inc.

The licensee filed a digital minor change BPDTL-20120827AEL to the existing digital license application BLDTL-20100330ABV for the above subject station.

I am unable to process the application as filed since there is an existing digital modification application BMPDTL-20100909AAW to the above mentioned digital license application.

If it is your intention to request the pending proposal to be processed as a minor change to the existing digital license then the licensee must request to have the existing digital modification construction permit BMPDTL-20100909AAW cancelled.

Please respond by September 14, 2012, if no response, I will process the pending proposal as a digital modification to the existing digital modification construction permit.

Thanks, Ron Graser
