RE: Permission to use the full power DTV emission mask to protect BLCDT-20060322ACN and BPCDT-20090204AAC for KXLA, Channel 51, Rancho Palos Verdes, CA, Facility ID 55083.

Dear Licensee of KXLA:

Venture Technologies Group, LLC ("VTG") is the licensee of KNLA-LD, Channel 50, Los Angeles, CA, Facility ID 167309. VTG plans to propose a minor change to its licensed facility BLDL-20110617ACW using a full power DTV emission mask pursuant to *Heading J (Use of Full Power DTV Emission Mask), Paragraph 68 of the Second Report and Order In the Matter of Amendment of Parts 73 and 74 of the Commission's Rules to Establish Rules for Digital Low Power Television, Television Translator, and Television Booster Stations and to Amend Rules for Digital Class A Television Stations*, MB Docket No. 03-185, released and adopted on July 15, 2011. Under the new rules, permission from KXLA will not be required for the use of the full power DTV emission mask. However, these rules are not yet in effect and will not be until after they are published in the Federal Register. Therefore, VTG hereby requests you to provide permission to KNLA-LD to use the full power DTV mask filter.

The use of the full power DTV emission mask adds greater protection to the facilities of KXLA. The Techware's tv\_process\_2010 software, on a Sun Blade 1500 using the post transition data and the 2000 US Census with default analysis settings, predicts when using the full power DTV emission mask, the proposed facility of KNLA-LD only causes "*de minimis*" interference (less than 0.5%) to the facilities of KXLA on channel 51, Rancho Palos Verdes, CA as specified in BLCDT-20060322ACN and BPCDT-20090204AAC.

In the event that the proposed facility of KNLA-LD is found to cause more than "*de minimis*" interference to the abovementioned facilities of KXLA; VTG will immediately take necessary actions to eliminate such interference.

[SIGNATURE PAGE TO FOLLOW]

In consideration of the foregoing, please indicate your consent to KNLA-LD using the full power DTV emission mask by countersign under the "ACCEPTED AND AGREED:" on this letter in the space provided below.

Sincerely,  
Venture Technologies Group, LLC
