

**April 2017  
KQFO(FM) Channel 261C2  
Pasco, WA  
Allocation Study**

**Contingent Application Group**

This application is being filed as part of a contingent application group, per the provisions of §73.3517(e) of the Commission's Rules. The contingent group is comprised of the following two applications:

- KWRL Channel 260C1 La Grande is filing a Form 301 application for minor modification to non-adjacent, but same class, Channel 272C1 at La Grande, with no change in transmitter site.
- KQFO Channel 260C2 Pasco is filing a Form 301 application for minor modification, for omnidirectional operation at the licensed site.

The licensees of KWRL and KQFO have entered into a written agreement to jointly prosecute their Form 301 applications.

**Spacing Study**

The attached spacing study shows that the proposed operation meets the co-channel and adjacent channel spacing requirements for Class C2 stations as prescribed in §73.207 of the Commission's Rules.

An indicated short-spacing to the licensed operation of KWRL on Channel 260C1 at La Grande is moot, as KWRL is simultaneously filing an application to modify to Channel 272C1 at La Grande.
