COMPLIANCE WITH SPECIAL OPERATING CONDITION

KXTV, Inc. (“*KXTV*”) is the licensee of digital television station KXTV(TV), Sacramento, California (see BLCDDT-20090622ADB). *KXTV* has completed construction of the facility authorized in the construction permit (“CP”) FCC File No. BMPCDDT-20111206AIB, and has commenced automatic program test operation.

The KXTV(TV) CP contains one *Special Operating Condition*. The condition requires notification of health care facilities prior to the commencement of operation. Based on information provided by a technical representative of *KXTV*, such notification was performed on July 20, 2009. The notification considered medical facilities that might be impacted by a 34.5 kW KXTV(TV) facility as authorized in a previous construction permit, BMPCDDT-20080620AMX. Since the current CP specifies operation at a power level reduced from that previously authorized and with a slightly smaller service contour, such notification should be considered as satisfied.
