

FCC Form 340
KSWs(FM) Modification of Permit
Exhibit 9 for Section II # 18

Fair Distribution of Service Section 307(b) Statement

The applicant was awarded a Construction Permit (BPED-19960325MD) based on fair distribution of service grounds in accordance with 47 U.S.C. § 307(b) and 47 C.F.R. § 73.7002.

The applicant certifies that the proposed modification will not downgrade service to the area on which the Section 307(b) preference was based. This modification only proposes to increase the Horizontal ERP of the station to match that of the currently authorized Vertical ERP which will not change the population or area served within the proposed F(50,50) 60 dBu contour. Attached is a contour map demonstrating that the proposed KSWs modification will not result in any decrease in coverage or covered population as compared to the existing construction permit.
