KZEL-FM RADIO STATION
CH 241C - 96.1 MHZ - 100.0 KW
EUGENE, OREGON
January 2009

EXHIBIT A

The proposed KZEL-FM antenna location will be shortspaced to one other FM station: the construction permit for KWLZ-FM, Channel 242C3, West Linn, Oregon.¹ In its application for construction permit (BPH-20070119AAT), KWLZ-FM requested processing pursuant to §73.215, protecting the licensed KZEL-FM as a maximum Class C facility. Exhibits A1 and A2 demonstrate that the shortage between the licensed and proposed KZEL-FM and the KWLZ-FM permit has not changed.² As such, KZEL-FM specifically does not request processing pursuant to §73.215 in this instant application.

-
- 1) The pending application to modify the permit was not considered as that was the triggering application.
 - 2) The distance between the licensed KZEL-FM site and the proposed KZEL-FM site is only 127 feet (38.7 meters). As such, there is no change in the distance between KZEL-FM and KWLZ-FM.
