## DECLARATION CONCERNING INSTALLATION OF WLJW-FM - DIRECTIONAL ANTENNA SYSTEM

I, Donald Parker, the chief engineer for WLJW FM., having personally observed the assembly, installation and orientation of the directional antenna system do hereby certify that all instructions of the manufacturer (ERI) were completely followed. I am familiar with the FCC rules and the standards of good engineering practice and certify that the installation is in compliance with such.

During installation and during subsequent operation of the FM facilities I certify that no one was exposed to excess levels of RF energy. The tower is fenced and appropriate warning signs are posted. The fence is 8 feet high and extends at least 20 feet from the tower to prevent inadvertent exposure to excess fields.

All facts contained herein are true of any own knowledge except where stated to be on information or belief, and as to those facts, I believe them to be true.

*Donald Parker C.E. of WLJW-FM*

Donald Parker, C.E.

Executed on the 5th day of February 2014.
