RE: K269EQ Loveland, Colorado

Dear Mr. Michael,

Rocky Mountain Public Broadcasting Network, Inc., licensee of KRMA-TV, Channel 6, Denver, Colorado, hereby states that it has no objections to the construction and operation of a proposed FM translator in Loveland, CO operated by Mountain Community Translators, LLC ("MCT"), on 90.9 mhz as proposed for FCC Facility ID number 140256.

By signing this letter below, MCT agrees that, if interference to Channel 6 should arise as a result of the proposed FM translator, MCT will immediately cease operation of the translator until a solution to the interference can be found. Rocky Mountain Public Broadcasting Network, Inc. will be the sole judge of whether interference is occurring to Channel 6 as a result of the proposed FM translator.

MCT will also supply TVI filters at no cost to listeners whose reception of the Channel 6 signal may be adversely affected by the proposed FM translator.

Sincerely,

John Wm. Anderson
C.T.O. Director of Network Engineering
Rocky Mountain Public Broadcasting, Inc.

Date: 12 MARCH 2007

Agreed and accepted:
