

FRANCES S. SMITH, dba NCN CABLE ADVERTISING
TL WKFK-LP - Pascagoula, MS - Fac ID 125534

EXHIBIT 6
Engineering Statement

The applicant is presently authorized, under File No. BTTVL-20030228AJC, to operate the reference facility at a site near Pascagoula, MS. In order to provide an improved service, it is now proposed to relocate the station to an existing tower near Vancleave, MS, with commensurate changes to the antenna system. The attached Exhibit 6A indicates the degree of overlap between the authorized and proposed service contours.

A review of all available records (please see attached Exhibit 6B) indicates that this proposal is predicted to cause interference to three facilities. In this instance, analyses per O.E.T. Bulletin No. 69 indicate that population loss to any of these would be less than 0.5% and appropriate waivers are requested.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Mel Freedman', with a stylized, flowing script.
