RE: WIAB & WHBP Antenna Installation

I certify that they WIAB and WHBP FM Directional antennas were assembled, mounthed and tested under my supervision, according to the plans and descriptions provided y the consulting firm Munn-Reese, Inc and antenna manufacturer Propagation Systems, Inc.

I have been active in broadcasting engineering since 1997, prior to this I served active duty in the United States Marine Corps as a ground radio repairman from 1992-1996.

I hold a Federal Communications Commission lifetime General Radiotelephone license, issued April 15, 1997.

Interlochen Center for the Arts employs me as Chief Broadcast Engineer for Interlochen Public Radio, and I am the designated Chief Operator of radio stations WIAA, WICV, WICA, W234BU, WIAB, WHBP and WLMN.

Gary Dangley
Chief Broadcast Engineer, IPR
