### **Preclusion Showing**

#### **Fairbanks, TX**

Community Public Radio, Inc. has provided the Auction 83 Short Form amendment application for Fairbanks, TX with minor changes from the original tech box proposal. The closest market to the proposed transmitter site is Arbitron Market #6 Houston-Galveston, TX. As seen on Figure 1 of this exhibit the specified antenna location is located within the 39 kilometer buffer of the above mentioned market.

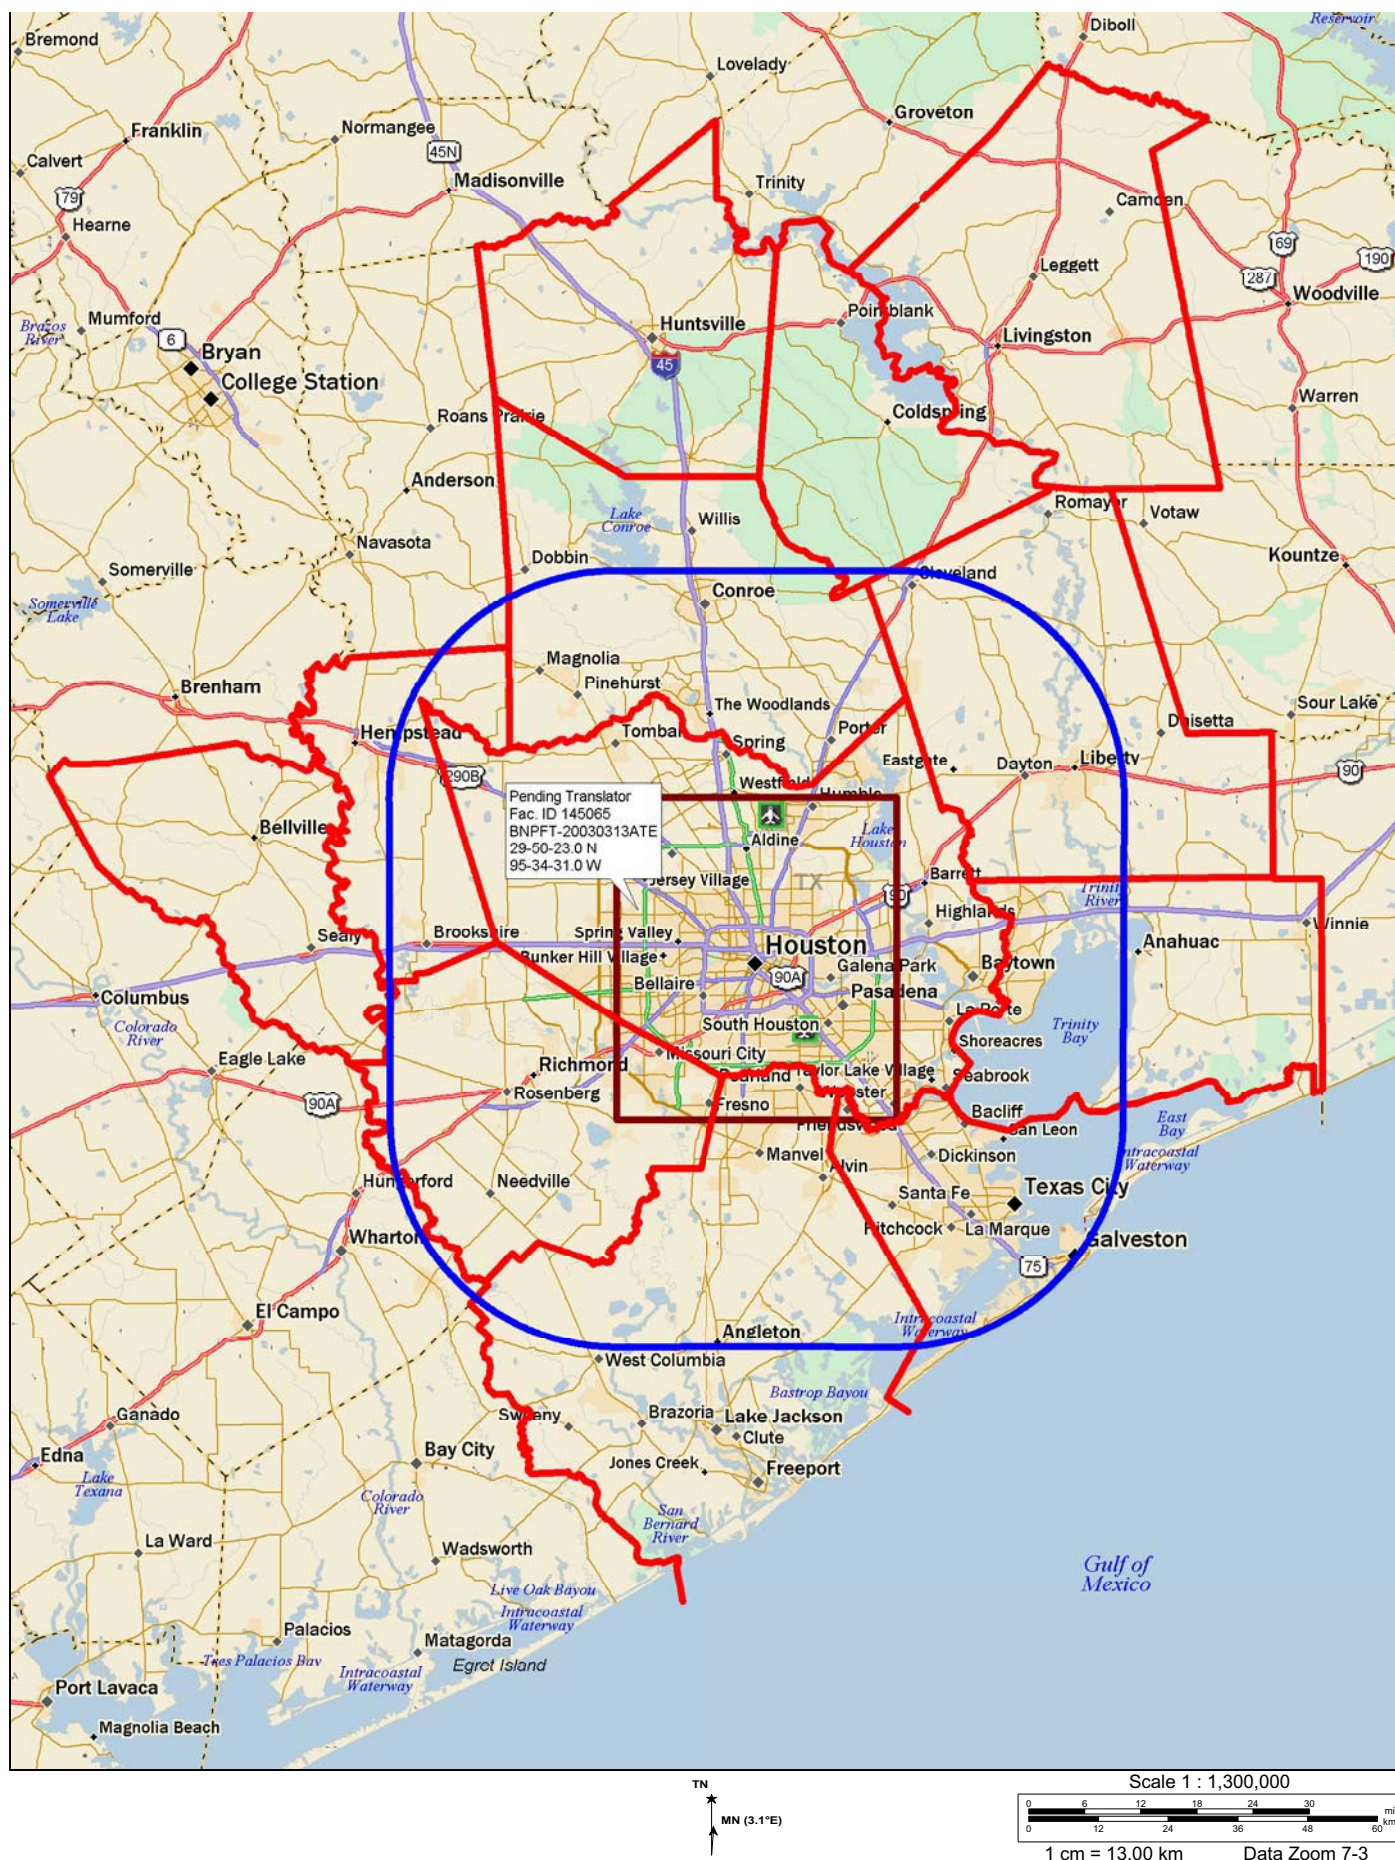

#### **Arbitron Market #6 for Houston-Galveston, TX**

The FCC LPFM Grid Tool shows available channels within the Arbitron Market #6 for Houston-Galveston, TX. The pending translator application proposes channel 254 (98.7 MHz). While the FCC's Grid Tool shows no LPFM points available for 254 or adjacent channels within the 30 x 30 grid. The FCC's Grid Tool Output is shown on page 13 of this file. Thus, the Fairbanks, TX application satisfies the Appendix A Grid Preclusion Showing by not precluding any identified points.

The Eaglemount, WA application is located within the 39 kilometer buffer of a Top-50 Spectrum Limited Market so the Top-50 Transmitter Site Test has been conducted. After conducting the Transmitter Site Test there are 12 remaining LPFM channels available that can work at the transmitter site for the Fairbanks, TX application. Based upon this question, the Fairbanks, TX application satisfies the Top-50 Transmitter Site Test.

Channel 223 --- 92.5 MHz  
Channel 235 --- 94.9 MHz  
Channel 236 --- 95.1 MHz  
Channel 237 --- 95.3 MHz  
Channel 241 --- 96.1 MHz  
Channel 259 --- 99.7 MHz  
Channel 260 --- 99.9 MHz  
Channel 268 --- 101.5 MHz  
Channel 269 --- 101.7 MHz  
Channel 273 --- 102.5 MHz  
Channel 283 --- 104.5 MHz  
Channel 291 --- 106.1 MHz
