Re: Catholic Broadcasting Northwest, Inc.  
KBVM(FM), Portland, Oregon  
Facility Identification Number: 41330  
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed October 13, 2010, on behalf of Catholic Broadcasting Northwest, Inc. ("CBNW"). CBNW requests further extension of the special temporary authority ("STA") granted on December 8, 2009, to operate Station KBVM with temporary facilities.<sup>1</sup> In support of the request, CBNW states that antenna construction is ongoing on the licensed tower and immediately adjacent towers.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has been prevented from restoring licensed operation due to causes beyond its control and has taken all possible steps to expeditiously resolve the problem. Thus, extension of STA is warranted.

Accordingly, the request for STA IS HEREBY GRANTED. Station KBVM may operate with the following facilities:

---

<sup>1</sup> KBVM is licensed for operation on Channel 202C2 (88.3 MHz) with effective radiated power of 3.5 kilowatts (H&V) and antenna height above average terrain of 437 meters.

Geographic coordinates: 45° 30' 58" N, 122° 43' 58" W (NAD 1927)  
Channel 202 (88.3 MHz)  
Effective radiated power: 2.5 kilowatts (Max-BT, H only)  
Antenna height:  
    above ground: 250 meters  
    above mean sea level: 573 meters  
    Above average terrain: 481 meters

CBNW must notify the Commission when licensed operation is restored. CBNW must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **May 2, 2011**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller". The signature is fluid and cursive, with a long horizontal stroke at the end.

Charles N. Miller, Engineer
