

This application is a 250 mile window application filed in the second AM revitalization window for class B AM station WVKO, Columbus, OH, Facility ID 22341. The licensee of WVKO has authorized this application during the window, and has authorized Sandblast, L.P. to rebroadcast WVKO.

The construction permit, which is the subject of this application, is scheduled to expire on 12/19/2016. Pursuant to footnote 36 of the revitalization of the AM radio service, first report and order MB docket no. 13-249 (FCC 15-142), released October 23, 2015, the applicant seeks a waiver/tolling of the expiration deadline to the longest period permitted by the commission.

This amendment is to implement the terms of an agreement to resolve the mutual exclusivity of this application and that of Indiana Community Radio Corporation, BPFT-20160729AHK. This agreement resolves the mutual exclusivity because it changes the channel to a non-conflicting one, as permitted in the AM revitalization proceeding.

In order to accommodate these changes, the following are amended in Section III-A of the application:

Question 1 – Channel to 225

Question 9 – Increased Effective Radiated Power

Question 10 – Antenna type and Pattern

Question 12 – All new exhibits

Question 17 – Revised RF exposure calculations
