**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Mollman Communications, Inc. ("MCI"), licensee of radio station KWCO-FM, Channel 288A, Chickasha, Oklahoma. MCI also holds an outstanding permit to construct an auxiliary antenna system for KWCO-FM when the KWCO-FM main site is out of service (BXPH-20081222ABJ). MCI herein submits a license application to cover this outstanding permit. A calculation of the transmitter power output of the KWCO-FM auxiliary antenna is attached as Exhibit A.

There is one operating condition/restriction on the KWCO-FM auxiliary antenna permit. The condition requires MCI to reduce power, or cease operation of the auxiliary facility, in coordination with other tower users, to protect persons having access to the site from radio frequency electromagnetic fields in excess of the FCC guidelines. MCI will comply with this condition. It is believed that the KWCO-FM auxiliary antenna has been constructed in compliance with the Commission's rules.
