

**ASSIGNEE'S EXHIBIT 10**

The instant transaction ("Television Transaction"), involving the assignment of the licenses of WTTV(TV), Bloomington-Indianapolis, IN, and WTTK(TV), Kokomo, IN, from SCI-Indiana Licensee, LLC ("SCI") to Tribune Denver Radio, Inc. ("TDR"), is related to another transaction ("Radio Transaction"), involving the assignment of the licenses of KEZW(AM), Aurora, CO, and KOSI(FM), Denver, CO, from TDR to Entercom Communications Corp. and its affiliates ("Entercom").

Consistent with the Internal Revenue Code and the rules and regulations of the Internal Revenue Service, the two transactions constitute a like kind exchange. In order to achieve such treatment, certain contractual rights are being assigned to Chicago Deferred Exchange Corporation ("Exchanger"); however, none of the station licenses will at any time be assigned to Exchanger. At closing, the licenses of WTTV and WTTK will be assigned directly from SCI to TDR and the licenses of KOSI and KEZW will be assigned directly from TDR to Entercom.

In order to achieve the desired tax treatment, it is necessary that the closing of the Radio Transaction take place before or simultaneously with the closing of the Television Transaction. The parties anticipate that both closings will take place on the same date. Accordingly, it is essential that the grant of the application for consent to the Radio Transaction occur on or about the same date as the grant of the instant application.

It is anticipated that the application for the Radio Transaction will be filed within the next five to eight days from the filing of the instant application. The parties respectfully request that the two applications be processed together and that the grants be issued on or about the same date.
