Re: Low Power Television Application of Rich County
Channel 45, Laketown, Etc., UT
File no: BNPDTT-20100223ACe
Facility Id No.: 184908

University of Utah has a licensed translator K46GD operating on channel 46. We are aware that Rich County has an application for a Channel 45 at Laketown. Both are at the same site. We do not believe there will be any interference to Rich County or the University of Utah. If there is we will work together to resolve it. We are in support of the granting of the above application.

Thanks You,

University of Utah
