Request for Extension of Special Temporary Authority

Eastern New Mexico University

Digital Companion Facility for TV Translator K49ES, Carlsbad, NM

Facility ID: 168077 File Number BDCCDTT-20061013ABE

STA File Number BSTA-20101028AAJ

Pursuant to Sections 74.780 and 73.1615 of the FCC's rules, Eastern New Mexico University (ENMU), licensee of noncommercial educational TV translator station K49ES, Carlsbad, New Mexico, respectfully requests an extension of the Special Temporary Authorization File No. BSTA-20101028AAJ granted November 3, 2010 to continue operation of the station's digital companion channel facility as specified by the instant application.

ENMU originally filed a digital companion channel application for the digital transition of station K49ES on June 30, 2006 in BSFDT-20060630BYM. ENMU filed its long form digital companion channel application for this facility on October 13, 2006 in File Number BDCCDTT-20061013ABE, Facility ID 168077. This digital conversion application presently remains pending.

A Federal PTFP/NTIA grant has funded the construction this facility to meet the mandated digital transition deadline for TV translators. ENMU now seeks an extension of the STA for the TV translator Facility ID 168077 to allow continuation of operation of this channel 23 digital TV translator station at a reduced power of 10 kW ERP.

ENMU has been informed that international coordination considerations have thus far been delayed the processing of the application in File Number BDCCDTT-20061013ABE. ENMU believes that the requested operation of the STA complies with the *Agreement Amending the Agreement Relating to Assignments and Usage of Television Broadcasting Channels in the Frequency Range of 470-806 MHz (Channels 14-69) Along the United States-Mexico Border*. ENMU has been informed that international coordination may be soon forthcoming, but the grant of an STA extension will be required for continued and uninterrupted operation.

A grant to extend the STA will serve the public interest by continuing the operation of ENMU's Carlsbad, New Mexico digital TV translator facility and noncommercial educational television service to local viewers. ENMU uses its Carlsbad TV translator to rebroadcast its co-licensed full service noncommercial educational DTV station KENW TV, Portales, New Mexico. ENMU is a noncommercial educational licensee and is a government entity. This application is therefore exempt from FCC regulatory fees, pursuant to Section 1.1162 of the Rules.
