

Exhibit 12 Figure 1
Day Site Plat
WLVE, Winchester, VA
January 2011

Scale: 1cm = 2 m

Property boundary extends beyond drawing in all directions

Ground system consists of 120 each, #10 copper wire buried radials extending 122.5 m in all directions from center of tower connected to copper strap boundary.

10 cm copper strap bounds transmitter fenced enclosure and bonds to tower bases, antenna coupler and transmitter building. Additional strap bisects enclosure strap where practicable.
