

(703) 299-9222

KGFM(FM), Bakersfield, CA, Minor Modification

The applicant believes that the KOCP class upgrade and the KPAT class downgrade should be able to be processed as minor changes. If necessary, a waiver to permit the filing of this change by minor change is hereby requested. However, as it is unclear from the language of the Commission's new rules whether this application is properly filed as a minor change, a Petition for Rulemaking asking for the upgrade and the change in KOCP's channel, and the KSBL Show Cause Order, is being filed herewith. If the FCC determines that these changes cannot be accomplished through minor change applications, then the Petition for Rulemaking should be processed as part of a "hybrid proposal" along with the related minor change application for KGFM.

ENGINEERING REPORT

KGFM(FM), Bakersfield, CA, Minor Modification

The Applicant respectfully asks the Commission to issue an order to Show Cause why KSBL should not be ordered onto channel 240A. (KSBL is the lone involuntary change required of this set of contingent applications.)¹

¹ It is noted that an affiliate of the licensee of KOCP is currently the proposed assignee of KSBL. If and when that affiliate acquires KSBL, then the show cause order will not be necessary, as the station will consent to the changes proposed herein.
