

SECTION 307(b) AMENDMENT

The purpose of this Amendment is to provide the Commission with information responsive to its June 16, 2005 *Public Notice*, DA 05-1660. The Commission stated there that in order for it to complete the processing of certain listed AM singleton applications proposing relocation of a station to a new community, each applicant must provide the following information with respect to both its proposed and current communities in its Section 307(b) amendment:

- (1) the number of stations licensed to each community;
- (2) the number of stations providing protected service to each community;
- (3) the population, according to 2000 Census data, within each community;
- (4) where relevant to establish the precondition of a licensable community, a description of the civic, cultural, religious, social, and commercial attributes of the proposed community; and
- (5) any other information deemed relevant by the applicant that would assist the Commission staff with its Section 307(b) analysis.

As noted in the attached Engineering Statement, Jeannette, Pennsylvania currently has one commercial daytime station licensed to it: WKFB(AM). The proposed community, North Huntingdon, Pennsylvania, currently has no stations licensed to it. At least 5 stations currently provide a protected contour to both Jeannette and North Huntingdon, which is not surprising given that no site or other technical change is proposed. The Commission considers five reception services to be "abundant." See *Family Broadcasting Group*, 53 RR 2d 662 (Rev. Bd 1983), *rev. denied*, FCC 83-559 (Nov. 21, 1983).

The 2000 Census population for Jeannette is 10,654 persons. The 2000 Census population for North Huntingdon is 29,123 persons. Its population grew by 3.4 percent from 1990 to 2000 and is projected to increase by more than 20 (20.8) percent between 2000 and 2010.

North Huntingdon Township has its own separate identity and history. The Township of Huntingdon was founded on April 6, 1773. Huntingdon was later divided into smaller townships of North Huntingdon, East Huntingdon and Sewickley. Until 1852, when the Pennsylvania Rail Road was constructed, North Huntingdon's chief industry was farming. Because the region's railroads were built to transport coal, the Township's economic focus shifted from farming to mining. Following the railroad's introduction, North Huntingdon became one of the region's leading Townships in the production of bituminous coal for more than three quarters of a century. The arrival of "King Coal" made a vast and permanent change in North Huntingdon Township. By 1900, over 10,000 people lived in the Township and 1,600 of them worked in the coalmines.

At the conclusion of World War II, several national and regional trends began affecting the Township's development patterns. People from the older riverside communities in the 1950's moved in mass migrations to North Huntingdon. The Township offered open spaces, less crowding and industrial population, and new housing. The population inflow to North

Huntingdon has continued until the present. Today, North Huntingdon continues to experience steady housing growth with more expensive and larger homes being constructed each year.

The Township's economic base has changed over the years. Coal, the dominate industry at onset of the 1900's, was replaced during the latter part of the century with small manufacturing operations, particularly machining and tool and die companies. During the last several decades, the construction of private and public industrial/office developments has increased the number of jobs offered in the Township. These parks feature smaller and cleaner operations with more emphasis on business and office services than production.

The seven member North Huntingdon Board of Commissioners serves as the governmental body involved in setting policy, enacting ordinances and resolutions, adopting budgets and levying taxes. To assist the Township Commissioners in the formation of public policy and general governance, several Boards and Commissions have been created including the Planning Commission, Civil Service Commission, Zoning Hearing Board, Educational Service Agency, Code Hearing Board and Recreation Board.

North Huntingdon Township provides the following public services: police protection; emergency communications; public works, zoning and permitting; and parks and recreation. Fire protection is provided by the community's volunteer fire department. Seven fire departments are spread throughout the Township and Rescue 8, providing emergency medical services, was formed in 1959. Assisting the Board of Commissioners in managing the affairs of the Township are the Township Manager, Planning and Zoning Director, Building Inspector, Public Works Director, Parks & Recreation Director and Police Chief.

North Huntingdon Township is part of the Norwin School District. The district encompasses the three municipalities of North Huntingdon Township, Irwin Borough and North Irwin Borough. Presently, the Norwin system is comprised of six elementary schools, two junior high schools, one senior high school and a central administration building, all of which but one elementary school are located in North Huntingdon Township. In addition, there are numerous pre-schools and private and parochial schools located in North Huntingdon, such as ABC Christian Day School, Kinder-Care Learning Center, Calvary Christian and Queen of Angels Regional Catholic, and extension classes are offered by Westmoreland County Community College.

North Huntingdon Township has a variety of business and commercial establishments, some of which identify themselves with the community by using "North Huntingdon" in their name, such as North Huntingdon Motors and North Huntingdon Floral. North Huntingdon has several dining establishments such as Bonnie's Place, Bubba Darius Restaurant, Chesterfield's Restaurant and O'Charlie's. Banking services are provided by numerous establishments such as Commercial National Bank, First National Bank, Irwin Bank and Trust Company, National City Bank and Parkvail Savings Bank. Scores of physicians and clinics are located in North Huntingdon Township, such as the Baldock Healthcare Center, Briarcliff Pavilion for Care and North Huntingdon Family Practice. Dental services are provided by, among others, Norwin Dental and Chestnut Hills Dental. Specialized medical services are also provided by, for example, Facial Surgery Center, Plank Chiropractic Center and East Suburban Sports Medicine.

Veterinarian services are available from Norwin Veterinarian Hospital, Countryside Veterinary Hospital and Schrader Veterinary Hospital.

North Huntingdon Township is home to numerous churches, including Christ United Presbyterian Church, Circleville United Methodist, Lutheran Church of Our Savior, Calvary Assembly of God and Saint Stephen's Byzantine Church.

North Huntingdon Township maintains its own web page at www.nhtpa.us. By assessing this web page, residents may access a wide variety of facts and events concerning North Huntingdon, including information regarding community news, community officials, services offered by the community and current events.

Pursuant to Section 307(b) of the Communications Act, the Commission is required to determine whether the relocation of a facility to another community will "provide a fair, efficient, and equitable distribution of radio service . . ." Thus, whenever an applicant seeks to change its community of license, the Commission compares the relative needs of the existing and proposed communities for radio service.¹ An application will be granted where relocation of the station to the new community would serve the Commission's service priorities better than continuing to license the station to its present community. The Commission's service priorities when making a Section 307(b) determination are: (1) first full-time aural service; (2) second full-time aural service; (3) first local service; and (4) other public interest matters. Priorities (2) and (3) are given equal weight.

North Huntingdon Township is the preferred community under the Commission's service priorities. Both North Huntingdon Township and Jeannette would receive or retain a first broadcast service under Priority Three. Clearly, however, given North Huntingdon Township's much greater population and its importance in the past, present and in the future, it deserves a station more than Jeannette. Its population is almost three times that of Jeannette.

Broadcast Communications, Inc. recognizes that the Commission's current policy is that, generally, it will not permit a station providing its community's sole local service to move to a new community of license unless another operating station simultaneously is moved into the previous community.² However, this policy is subject, like all Commission policies, to waiver under appropriate conditions. In this case there are substantial public interest considerations in favor of waiving that policy.

Initially, it is noted that the Commission current policy of promoting continuity of service over all other public interest considerations is contrary to the intent of Section 307(b) and does not maximize service to the public. The interest of one community in retaining its sole existing local transmission service should not outweigh the interest of the greater number of listeners in a second community in obtaining their first local transmission service, especially when the first

¹ *Second Report and Order, FM Channel Policies/Procedures*, 90 FCC 2d 88, 90-93; *recon. denied*, 56 RR 2d 448 (1984). These priorities were first applied in Section 307(b) determinations in the AM context by the Review Board in *Alessandro Broadcasting Co.*, 56 RR 2d 1569 (Rev. Bd. 1984).

² *Amendment of the Commission's Rule Regarding Modification of FM and TV Authorizations to Specify a New Community of License*, 4 FCC Rcd 4870, 4874 (1989), *recon. granted in part*, 5 FCC Rcd 7094, 7097 (1990).

community already is served by multiple aural services and when other public interest factors are present.³ And the Commission has recognized this as it has indicated its willingness to review the issue of when relocation of a community's sole local transmission service to another community as its first local transmission service advances the public interest in its recently released Notice of Proposed Rule Making, *Revision of Procedures Governing Amendment to the FM Table of Allotments and Changes of Community of License in the Radio Broadcast Services*, FCC 05-120, released June 14, 2005.

In the present case, absent the policy in issue, it is clear beyond any reasonable dispute that North Huntingdon Township would be the preferred community under a Section 307(b) comparison since it has more important civic, cultural, religious, social and commercial attributes than does Jeannette, a community roughly one third its size. Moreover, at least five other stations provide a 70 dBu signal to Jeannette. Even with grant of the instant application, Station WKFB will continue to provide a 70 dBu signal to that community as the station is not changing its site as part of its application. Therefore, since Jeannette will still be located within the WKFB service area, the station will continue to have an obligation to provide service to that community. Residents of Jeannette are, thus, guaranteed that they will continue to receive a satisfactory level of service from existing stations, including WKFB. Nor will approval of this application create any additional interference to any other station.

In view of the above, waiver of the policy against removing a community's sole local service and grant of this application would result in a net service benefit to the public. As such, since approval will provide for a "fair, efficient and equitable" distribution of AM radio service, this application should be granted.

³ When evaluating public interest considerations the Commission often emphasizes increased population coverage as a significant public interest factor. Indeed, in the Commission's original allocation priorities, "provision of a first FM service to as much of the population of the United States is possible . . ." was the very first priority after "provision for all existing FM station." See *Revision of FM Assignment Policies and Procedures*, 90 FCC 2d 88, 90 (1982); citing *Third Report, Memorandum Opinion and Order*, 40 FCC 747 (1963). Therefore, clearly, it would serve the public interest for WKFB to be able to move to North Huntingdon Township, where it would provide a first local service to a far great many more people than at present.

ENGINEERING STATEMENT:

**IN SUPPORT OF A SECTION 307(b) SHOWING
for
BROADCAST COMMUNICATIONS, INC.
AM BROADCAST STATION WKFB
{BMJP-20050113AAF & BMJP-20040129AOP}
NORTH HUNTINGDON, PENNSYLVANIA
FCC FACILITY ID NUMBER 10026**

I. GENERAL:

I, Alan E. Gearing, hereby certify: that I am a senior engineer in the firm of Mullaney Engineering, Inc., consulting broadcast and radio communications engineers with offices in Gaithersburg, Maryland; that I hold a Bachelor of Science degree in Electrical Engineering from SUNY University at Buffalo; that I am a registered professional engineer in the District of Columbia (since 1979); and that I have provided engineering services in the areas of broadcasting and radio communications since 1973. My qualifications as an expert in radio engineering are a matter of record with the Federal Communications Commission.

This engineering statement has been prepared on behalf of Broadcast Communications, Inc. (hereinafter "BCI"), licensee of AM broadcast station WKFB currently licensed to serve the community of Jeannette, Pennsylvania. BCI has filed a long form application, FCC File No. BMJP-20050113AAF, to change the community of license for WKFB from Jeannette to North Huntingdon, Pennsylvania. That application is a singleton in AM Auction No. 84.

The instant engineering statement is in response to a Commission request for an application amendment providing a complete Section 307(b) showing - see

FCC Public Notice DA 05-1660 "*Section 307(b) Amendment Deadline Established for Certain AM Auction No. 84 Singleton Applications*" released 16 June 2005.

II. **SECTION 307(B) ANALYSIS:**

The community of Jeannette, Pennsylvania, has a 2000 U.S. Census population of 10,654 persons and the community of North Huntingdon, Pennsylvania, has a 2000 U.S. Census population of 29,123 persons. Station WKFB is currently the only station licensed to Jeannette. There **are no** stations currently licensed to North Huntingdon.

The following table lists five stations which currently provide protected service daytime¹ to **BOTH** communities.

CALL SIGN	FAC ID	SERVICE	CITY, STATE
WEAE	65691	AM	PITTSBURG, PA
WAMO	60155	AM	MILLVALE, PA
WBGG	59960	AM	PITTSBURG, PA
WMBS	21237	AM	UNIONTOWN, PA
KDKA	25443	AM	PITTSBURG, PA

The Commission considers areas that receive at least five radio services as well-served and any count of services beyond five is unnecessary (See footnote 5 of the NPRM in MM Docket No. 94-61, adopted 9 June 1994 and released 5 July 1994.)

¹ Since WKFB is a daytime only station, it is only necessary to show other daytime services

III. SUMMARY:

Each community has an abundance of reception services (five or more). Changing station WKFB's community of license would result in a first local service to North Huntingdon with a population of 29,123 persons compared to Jeannette with a population of only 10,654 persons.

The undersigned attests that the instant engineering statement was prepared by himself and that the statements contained herein are true of his own personal knowledge except those stated to be on information and belief, and as to those statements he verily believes them to be true and correct.

A handwritten signature in black ink that reads "Alan E. Gearing". The signature is written in a cursive, flowing style.

Alan E. Gearing, P.E.

ABOUT US

North Huntingdon Township offers residents a wide variety of high quality opportunities. From the availability of employment to fine educational institutions, North Huntingdon Township creates an ideal atmosphere for an enhanced quality of life. Our citizens value continuing education, as evidenced in our high rate of High School graduation as well as college bound students. Residents and visitors can also enjoy our beautiful parks and open spaces, a safe and attractive environment, and cultural and historical sites and events.

North Huntingdon Township can be described as a safe place to live. The major crime index, or number of major crimes committed per capita is 64% less than the state wide average while the percentage of those crimes that are cleared by the police department is 27% higher than the state wide average. To summarize, residents of North Huntingdon have a far less chance of becoming the victim of a major crime, but if they are, a greater chance of having it solved.

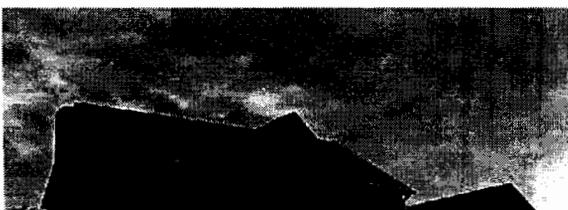

The following are some of the many beautiful sites within North Huntingdon Township.

One of the many office complexes located in North Huntingdon

The entrance to the Westmoreland County Industrial Park located in North Huntingdon

One of the beautiful new houses completed
in North Huntingdon Township

#### **RECYCLING INFORMATION**

**PA CLEANWAYS** will hold it's 9th annual Hazardous Waste (HHW) collection on **Saturday, September 17, 2005, from 9:00 AM to 2:00 PM at Westmoreland Fairgrounds**. Residents of sponsoring municipalities (North Huntingdon is a sponsor) can drop off their hazardous waste free of charge. Check their web site at [www.pacleanways-wc.org](http://www.pacleanways-wc.org). The PA Cleanway newsletter states that 1,100 Staples, Inc. will accept rechargeable batteries for recycling. Residents can place used rechargeable batteries from cell phones, digital cameras, laptops, computers and other portable electronic devices in drop-off boxes at a location site near the fairgrounds. Many of these items still contain mercury switches and lead soldering. You can reach Cleanways at 724-836-4129 for any additional information.

**Used Christmas cards** can be mailed to: St. Jude's Ranch for children, 100 St. Boulder City, NV 89005 or call 1-800-492-3562. They make new cards from your old cards to support the ranch.

**OUTDOOR BURNING & FIRES:** The Police Department would like to inform the community about outdoor burning and fires during the summer months.

All outdoor burning and fires are expressly prohibited except as may be authorized under the following terms. A permit issued by the Police Department of the Township of North Huntingdon, shall be required for all outdoor burning and fires for all categories.

All outdoor burning or fires in areas of residential dwellings shall be limited to the burning of paper products, newspaper and yard waste, excluding leaves, during the hours of 9:00 A.M. until 5:00 P.M. on Wednesdays, Thursdays, Fridays, and Saturdays. All outdoor fires, open or contained, shall be attended and have an adequate water supply or equal extinguishing agent throughout the duration of the burning.

Outdoor burning or fires confined to an approved container or burning barrel will not require a permit, but shall comply with all pertinent provisions of this ordinance.

No person or persons shall set or maintain any outdoor burning or fires within seventy-five feet of any structure. Open burning requires a permit issued by the Police Department and may only be conducted on Saturdays from 9:00 A.M. to 5:00 P.M. prevailing time as to the day requested. The permit issued is a one time permit only for the day requested and a new permit must be obtained for each and every open burning Saturday.

For more information, contact the Police Department at 724-863-8800.

## **WEST NILE VIRUS INFORMATION SHEET**

[www.westnile.state.pa.us](http://www.westnile.state.pa.us)

### **FREQUENTLY ASKED QUESTIONS AND ANSWERS**

(All information contained in this sheet is taken directly from the Centers for Disease Control and Prevention (CDC) website, [www.cdc.gov](http://www.cdc.gov))

#### **What is West Nile encephalitis?**

"Encephalitis" means an inflammation of the brain and can be caused by virus and bacteria, including viruses transmitted by mosquitoes. West Nile encephalitis is an infection of the brain caused by West Nile virus, a flavivirus commonly found in Africa, West Asia, and the Middle East. It is closely related to St. Louis encephalitis virus found in the United States.

#### **Where did West Nile virus come from?**

West Nile virus has been commonly found in humans and birds and other vertebrates in Africa, Eastern Europe, West Asia, and the Middle East, but until 1999 had not previously been documented in the Western Hemisphere. It is not known from where the U.S. virus originated, but it is most closely related genetically to strains found in the Middle East.

#### **How long has West Nile virus been in the U.S.?**

It is not known how long it has been in the U.S., but CDC scientists believe the virus has probably been in the eastern U.S. since the early summer of 1999, possibly longer.

#### **How many cases of West Nile encephalitis in humans have occurred in the U.S.?**

In 1999, 62 cases of severe disease, including 7 deaths, occurred in the New York area. In 2000, 21 cases were reported, including 2 deaths in the New York City area. In 2001, there were 66 human cases of severe disease and 9 deaths. No reliable estimates are available for the number of cases of West Nile encephalitis that occur worldwide.

#### **Do the findings indicate that West Nile virus is established in the Western Hemisphere?**

The continued expansion of the West Nile virus in the United States indicates that it is permanently established in the Western Hemisphere.

#### **Is the disease seasonal in its occurrence?**

In the temperate zone of the world (i.e. between latitudes 23.5° and 66.5° north and south), West Nile encephalitis cases occur primarily in the late summer and early fall. In the southern climates where temperatures are milder, West Nile virus can be transmitted year round.

#### **How do people get West Nile encephalitis?**

People become infected by the bite of mosquitoes infected with West Nile virus.

#### **What is the basic transmission cycle?**

Mosquitoes become infected when they feed on infected birds, which may circulate the virus in their blood for a few days. Infected mosquitoes can then transmit West Nile virus to humans and animals while biting to take blood. The virus is located in the mosquito's salivary glands. During blood feeding, the virus may be injected into the animal or human, where it may multiply, possibly causing illness.

#### **If I live in an area where birds or mosquitoes with West Nile virus have been**

### BOARD OF COMMISSIONERS

#### Role of Commissioners

The Board serves as the legislative body of the Township, setting policy, enacting ordinances and resolutions, adopting budgets and levying taxes. Because of the Commissioner's elected status, an individual in that position is often looked to as a community leader. Certainly Commissioners are the proper recipients of complaints, ideas and suggestions concerning Township affairs. In many cases the Commissioner is called upon to perform as a problem solver, acting as an agent for Township citizens with municipal or even outside agencies. The Commissioner has a role in representing the Township's communal interest, past, present, and future.

The seven members of the North Huntingdon Board of Commissioners are working to support positive commitments for the benefit of the citizens of the Township. They listen to the voices of the citizens and evaluate the merits of their concerns. The Commissioners have succeeded in encouraging commercial development which has resulted in an increase of "good jobs" and a tax base from which the Board can continue progressive growth.

The Board of Commissioners is pleased to serve our community and hopes you find the information provided on this web page helpful.

#### Term of Office

The term of office for a Township Commissioner is four years. The code establishes a pattern of staggered elections so that roughly half the Board is up for election at each municipal election year.

#### Qualifications

The basic qualification to serve as a Township Commissioner is to be a registered voter of the Township. To qualify as a voter, a person must be eighteen years of age and a resident of the election district. To serve as a Township Commissioner, an individual must retain residence within the Township.

|                                                                                                                                                                                                                                                                                                                               |                                                                                      |

### TOWNSHIP BOARDS

## Board of Commissioners

The Board of Commissioners will conduct regular meetings at 7:00 P.M. on the third Wednesday of each month. Additionally, the Board of Commissioners will conduct Special Meetings at 7:00 P.M. on the following dates: January 19, February 16, March 16, April 20, May 18, June 15, July 20, August 17, September 21, October 19, November 16, and December 21, 2005.

|                            | Term Expiration |
|----------------------------|-----------------|
| President ~ Tom Kerber     | 12/31/07        |
| Vice President ~ Rich Gray | 12/31/05        |
| Donald F. Austin           | 12/31/07        |
| George Fohner              | 12/31/07        |
| Angelo Furlin              | 12/31/05        |
| John Thornton              | 12/31/05        |
| Timothy Hondal             | 12/31/07        |

[Top of Page](#)

## Planning Commission

The Planning Commission meets the first Monday of each month at the Townhouse. The following are the meeting dates for the year 2005: January 10, February 7, March 7, April 4, May 2, June 6, June 27 for July, August 1, August 29 for September, October 3, November 7, and December 5.

The Planning Commission consists of nine members who are all appointed by the governing body. Each member is to serve a four-year term. Each Planning Commission is empowered to make rules and regulations for its own organization and administration, though these rules must be consistent with the laws of the Commonwealth.

The Planning Code requires that, before any final action can be taken by the governing body, the planning commission must review and make recommendations on proposed decisions affecting or relating to the comprehensive plan, the zoning ordinance with or without planned residential development provisions, subdivision and land development regulations, and official map. In addition to accepting or rejecting a proposal, the commission can make recommendations for amendments to planning and related ordinances.

|                 | Term Expiration |
|-----------------|-----------------|
| William Chapman | 12/31/07        |
| Stephen Cross   | 12/31/05        |

|                  |          |
|------------------|----------|

| Margie Diegelman | 12/31/07 |
| Robert Pioth     | 12/31/08 |
| Bernard Solomon  | 12/31/05 |
| Virginia Stump   | 12/31/06 |
| Robert Merda     | 12/31/06 |

[Top of Page](#)

## Zoning Hearing Board

The Zoning Hearing Board will hear appeals for the year 2005 on Tuesdays at 7:30 P.M. for the following meeting dates: January 4, February 8, March 8, April 5, May 3, June 7, July 5, August 2, September 6, October 4, November 1, and December 6.

The Zoning Hearing Board (ZHB) is established in the Township as part of the Zoning Ordinance. Its purpose is to hear appeals from decisions of the Zoning Officer when a building or development activity cannot meet the literal text of the Zoning Ordinance. For example, if you wanted to build a garage closer than ten feet from your rear lot line, the zoning officer cannot issue you a permit unless a variance is issued from the ZHB. They will conduct a public hearing where you must demonstrate a hardship why you cannot meet the literal text of the ordinance. The ZHB is comprised of 5 citizens of the Township who are appointed by the Board of Commissioners. Despite being appointed by the Board of Commissioners, they are an independent quasi-judicial board.

|                     | Term Expiration |
|---------------------|-----------------|
| George Butler       | 12/30/05        |
| Robert Barger       | 12/31/06        |
| Jacqueline Willis   | 12/31/07        |
| Theodore Wawrzyniak | 12/31/08        |
| Vacancy             |                 |

## Civil Service Commission

The Civil Service Commission is a three member board of Township residents that oversee the hiring and promotion process within the Police Department. All sworn law enforcement positions within the Police Department are civil service positions. The Civil Service Commission is charged with establishing testing and selection criteria for all applicants for entry level and promotion positions within the Police Department. When there is an opening within the Department, the Civil Service Commission schedules a competitive examination, usually consisting of written, oral, and physical fitness components, for all candidates. Also, the Civil Service Commission conducts extensive background checks on potential candidates for police positions. Once all of the testing is complete, the Civil Service Commission ranks all candidates and forwards the list of the top three candidates for hiring consideration by the Board of Commissioners. The Civil Service Commission meets when necessary.

|                  | Term Expiration |

## Recreation Board

The Recreation Board meets the first Tuesday of each month at the Townhouse. The following are the meeting dates for the year 2005: January 4, February 1, March 1, April 5, May 3, June 7, July 5, August 2, September 6, October 4, November 1, and December 6.

The Recreation Board consists of seven members that are Township residents appointed by the governing body. Each member is to serve a five-year term. Two of the seven members are nominated by the School Board by Township Ordinance.

The Recreation Board is responsible for recommending recreational programs and events to the Board of Commissioners and the Parks and Recreation Department that meet the objectives of the Township Comprehensive Recreation Plan. This includes assisting in the development and staffing of these programs and events.

|                    | Term Expiration |
|--------------------|-----------------|
| William Loeffler   | 12/31/07        |

***North Huntingdon Township Parks and Recreation Department  
Mission Statement***

The mission of the North Huntingdon Township Parks and Recreation Department is to effectively and efficiently meet the recreation needs and interests of residents of all ages. Efforts to fulfill our mission focus on the updating of present facilities and playgrounds, planning for the acquisition of future facilities, and the provision of a wide range of year round recreation activities that utilize traditional and innovative programming ideas.

***Due to the vacancy of the position of Parks and Recreation Director, North Huntingdon Township has elected to revise the 2005 Recreation Program Calendar by eliminating the Little Tikes Summer Camp and the Baseball Tournament. The Township looks forward to the further development of these new programs in the future when the Parks and Recreation Department regains a full staffing level.***

# PARKS & RECREATION

---

## PAVILION & BALL FIELD RENTAL

Applying for a permit must be done in person at the North Huntingdon Township Administration office, located in the Townhouse at 11279 Center Highway. You may pay by cash, check or money order. **Alcohol is prohibited in all parks. Canines are permitted at all parks except Indian Lake. Canine owners are required to clean up any dog waste. Canines are not permitted in pavilions, playground area or on ballfield playing areas.**

You will find a fee schedule in the chart below. Click on the **park name** for directions.

**\*No Refunds or Cancellations for Inclement Weather!**

**NOTE: NON-RESIDENTS WILL PAY AN ADDITIONAL \$20.00 FEE FOR PAVILION RENTALS!**

# People Pets & Parks

## Parks Are for Everyone

The Township of North Huntingdon recognizes pets as legitimate park users. In order to meet the needs of all users in our parks and open spaces, the Township Ordinance No. 938 Article I Section 13 addresses Domestic Animals in parks.

Pets are permitted in all parks with the exception of Indian Lake Park under the following conditions:

- Pet owners must clean up after their pet and dispose of it in provided waste receptacles.
- All domestic animals must be on a leash no longer than 6 feet in length, and under control at all times.
- Domestic animals are not permitted within 25 feet of pavilions, playgrounds, athletic playing fields or in attendance at Township sponsored special events.
- Owners are required to clean up after their domestic animals immediately.

## Penalties

Pet owners are required to immediately clean up after their pet. Failure to clean up is punishable by a fine up to \$1000 in accordance with Ordinance No. 938 Article IV Section I.

## Pet Waste Stations

Pet waste stations have been installed in all parks throughout the Township. The stations include a bag dispenser and waste receptacles for your pet waste. *Do your part and others will follow your lead.*

## Sponsorship Opportunities

The People, Pets and Parks program relies on the community for their support. There are a number of sponsorship opportunities available to the community such as:

- Pet Waste Stations
- Pet Waste Bags
- Brochures
- Signage

Get involved and support the Township by keeping all of our parks and open spaces beautiful for everyone to enjoy.

## Concerns?

Many people are concerned about allowing pets into the parks. Allow us to address some of these concerns:

*Dog fights.* With these animals being around each other, won't there be fights? Actually, because they are on "neutral territory" in a park, dogs have less to fight about. Even territorial dogs become friendlier when off their home turf. They're more likely to be excited about having a chance to enjoy the opportunity to spend time in our beautiful parks.

*Animal waste.* This is the number one concern of most all park patrons when considering the allowance of animals into the parks. Nobody wants to see, smell, or step in animal waste. Also, it is known that animal feces can cause the spread of disease. This is the same for fecal matter from other animals in the park (i.e. geese). If the pets' waste is cleaned up and disposed of, the threat of disease is eliminated. It is the responsibility of the animal owners to clean up and dispose of their pets' waste. More than likely, if a pet owner took the time and consideration to bring their pet to the parks, they are responsible enough as an owner to clean up after them.

## For Pet Owners

Just as there is pet etiquette for the parks, there is also “human etiquette.” Keep in mind that the allowance of dogs in the parks is a privilege and for it to remain so you must be mindful of the other park visitors. Keep in mind these few suggestions:

*Overly friendly pets.* Think of your pet’s behavior as a reflection on your own manners. Is it polite to let your child run up to strangers and kiss them repeatedly? Well, it isn’t polite to let your pet run up to other people uninvited and plant sloppy kisses on them either.

*Watch out for young children.* Young children may become frightened by even a friendly pet approaching them, or could be knocked down and hurt accidentally. Even though your pet may be the cutest bundle of love on the planet, respect the fact that others may not feel the same way as you.

*Take responsibility for their actions.* Realize that pets are likely to be excited about being in the park. They like to play in the dirt, chase animals, leave their mark, and so on. So be aware of this and realize that these are not all acceptable practices in the parks. Digging creates holes in the parks where children and adults could trip and hurt themselves. They can also dig up and permanently harm park wildlife’s habitats and homes. Chasing other animals, whether geese or deer or squirrels, disturbs the wildlife and causes unnecessary stress on the natural inhabitants. As for leaving their mark, be intelligent and don’t allow your pets to relieve themselves near or in any water source. Also please pick up after your pet right away. Your pet will be on a leash so there’s no excuse that you didn’t see them go to the bathroom. This just follows with the, “Leave the park a little better than when you arrived” philosophy. Thanks!

A few simple rules will make your experience in the Township parks enjoyable for everyone.

- Stoop and Scoop
- Share the Park
- Leash Your Pet
- Keep Your Pet Under Control

# PARKS & RECREATION

---

## **Indian Lake**

Indian Lake provides a 1/2 mile bituminous walking trail.

## **Braddock's Trail Park**

Various walking/hiking trails exist within this park and more are currently being developed. The degree of difficulty varies from trail to trail.

## **Oak Hollow Park**

Various walking/hiking trails exist within this park with varying degrees of difficulty.

## **EXECUTIVE SUMMARY**

In recognizing the need to improve the Township's recreational and leisure programs and facilities, Township Commissioners retained the services of Environmental Planning and Design, LLC and Ms. Joanne Nelson to assist the community in defining the Township's vision for improving recreational and leisure services. The initial plan objectives were:

1. Address the recreational needs of all ages, abilities and interests.
2. Develop joint-use between private organizations, volunteer groups, the Township and other organizations.
3. Pursue grant funding for the development of Township facilities in collaboration with other groups, organizations or agencies.
4. Operate a responsible and financially efficient recreational department.

The Plans purpose is to provide a framework to guide the provision of recreational services and amenities to the citizens of North Huntingdon Township. The Study Committee with the assistance of Township Staff and Township Commissioners initiated the development of the Comprehensive Park, Recreation and Open Space Plan to explore the status of current recreational facilities and programs, to investigate a means to administer the recreation services and to plan for future recreational growth within the Township.

### **Public Participation**

The Comprehensive Park, Recreation and Open Space Plan was developed through an extensive collection of citizen input. This public feedback was gathered throughout the planning process.

The Comprehensive Park, Recreation and Open Space Plan incorporated numerous community participation opportunities throughout the planning process. The participation strategy was designed to respond to the specific needs of the community and the Study. Consequently, several types of participation opportunities were integrated into the strategy. The use of these various forms of public input helps to define project issues, as well as builds public consent for the study through the community's direct involvement. These public participation efforts include:

- Study Committee;
- Citizen Survey;
- Open House and Public Meetings;
- Focus Group Work Sessions; and
- Key Person Interviews.

The Study Committee, Township Staff and Commissioners actively participated in the development of the community survey and provided valuable input to the Project Team.

**Mission Statement**

Throughout the planning process, the Study Committee and the public identified several guiding principles. These principles established the direction of the planning processes, and provided the basis for the Plan's framework. A summary of these principles is as follows:

The Township and Study Committee's Mission is to provide a variety of accessible parks and active/passive recreational opportunities to all residents of the community. These recreational opportunities should create an open space network that enhances the beauty of the natural environment as well as provide opportunities for leisure and recreational activities for all Township residents. The following is an overview of suggested objectives defined by the Study Committee:

1. Address the changing recreational needs of the community by promoting facilities and programs for all age groups.
2. Provide unique and innovative recreational and leisure opportunities to the community.
3. Develop a thorough maintenance program for all recreational facilities.
4. Create a prioritized park enhancement strategy to further develop the existing neighborhood parks based on the desires of the residents and the Township's financial resources.
5. Define criteria for the establishment of new Township parks to provide residents with the most complete level of recreational opportunities attainable.
6. Propose land acquisition criteria that include the analysis of residents' desires, distribution of parcel location, size of parcel and future recreation development compatibility.
7. Develop a partnering strategy with the Norwin School District and neighboring communities to provide opportunities for joint use of other existing recreational facilities.
8. Pointedly survey citizen opinion regarding current park and recreation operations, facilities and programs offered throughout the community.
9. Propose short and long-term recommendations that address the findings of the citizen survey and provide a workable framework within which improvements can occur.
10. Coordinate future recreational planning with Westmoreland County.

11. Create a mandatory dedication ordinance to ensure future recreational needs are addressed during new residential development. Additionally, provide a means for fee in lieu of land dedication in situations where a fair contribution to the Township's overall park system is in the best interest of the community's recreational needs.
12. Create a Comprehensive Park, Recreation, and Open Space Plan that will be practically implemented over time and may be flexibly altered in response to community-wide demographic and economic changes.
13. Develop park facilities that can be constructed, operated and maintained without burdening the existing tax base, and can be financed through numerous funding sources.

**Recommendations**

Fundamental to the Comprehensive Park, Recreation and Open Space Plan's success is the specific recommendations established to achieve the Study's goals. The following provides a listing of the "key" Study Recommendations. A Recommendations Summary is provided in Section I - Project Overview and a further detailed description of each recommendation category is defined in Section V – Recommendations.

1. Address the current Township parks "identity crisis" by increasing public awareness through the creation of a series of promotional materials.
2. Develop a Parks and Recreation Department to coordinate all recreational and leisure offerings within the Township.
3. Implement the position of Recreation Director to head the newly formed Parks and Recreation Department.
4. New programs should be initiated by the Township but only if developed through the new Recreation Director.
5. The Township should enhance the current programming offered by private organizations by providing joint venture opportunities to expand offerings to the community.
6. Develop a long range maintenance plan that addresses the community's needs, existing park conditions, incorporates current available resources and capabilities as well as integrates the Township's priorities for maintaining the park system's image.

7. Define a strategy for developing an ordinance requiring developers to dedicate a percentage of open space land to the Township for use in developing recreational spaces to serve these new residential areas and provide a means for developers to allocate a fee to the Township to be used to develop an alternative resource rather than dedicating lands for future park development.
8. Address the existing playground safety issues identified in the safety audit.
9. Implement a program to allocate a defined budget amount each year as part of the Recreation Department's Capital Reserve Fund Budget.
10. Implement short term, medium term and long term strategies for Plan development. Critical to the Plan's success will be the implementation of the Short Term Strategies such as the development of a Parks and Recreation Department and employing a Recreation Director.

## I. PROJECT OVERVIEW

### A. Introduction

North Huntingdon Township is a community with extraordinary parks. Oak Hollow, Indian Lake and Braddock's Trail are three parks with stunning features, sure to delight visitors for generations. Smaller parks like Hilltop brim with potential. The Township has an excellent foundation with these resources, and is now weighing the options for the future, evidenced by the community's public support of this Plan.

In response to the community's Comprehensive Plan recommendations, the 2002 North Huntingdon Township Comprehensive Park, Recreation and Open Space Plan deals with evaluating the existing parks and recreation services. The Plan recommends improvements to the quality of parks and recreation within the community. In addition to analyzing the Township's parks, recreation and leisure assets, the project considered the community's existing physical, natural and socio-economic resources.

The initial step in improving the Township's recreation and leisure programs is the foresight to develop this Comprehensive Plan. If adopted, the Plan will provide direction for confident decision-making. The high level of public participation and sound planning systems has created a blueprint for developing future recreational opportunities. Acceptance of the Plan provides the Township with a planning tool to define the community's future recreational opportunities.

### B. Developing the "Blueprint"

The development of this Plan provides a clear and detailed strategy that the Township can implement and communicate to park visitors, staff and the entire community. Defined goals are important in obtaining support for new programs events or facilities. To understand the community's desires, the results of the public survey and the key person interviews as well as Study Committee and public meeting responses were analyzed. Throughout the input process, a number of issues were consistently raised. These issues became the Study's initial objectives.

1. Address the recreational needs of all ages, abilities and interests.
2. Develop joint-use between private organizations, volunteer groups, the Township and other organizations.
3. Pursue grant funding for the development of Township facilities in collaboration with other groups, organizations or agencies.
4. Operate a responsible and financially efficient recreational department.

The public is demanding a higher level of recreation facilities as the community grows and Commissioners want to make responsible decisions. Analyzing the

inventory of facilities and programs as well as public survey results provides the direction for developing a ten-year strategy for the existing facilities as well as the acquisition/development of new and existing facilities. Both existing and future recreation programming will play a key role in determining the scope of new recreational amenities. These issues will be addressed in the Study recommendation.

**C. Study Goals**

As the data collection process unfolded, periodic Study Committee meetings afforded opportunities to discuss detailed planning issues. These issues are outlined below, many of which became the Study's primary goals. Some of these goals led to the formation of recommendations.

1. Administration Goals

- a. Specify the Recreation Board's responsibilities and explore ways to improve its impact on the Township's Parks and Recreation System.
- b. Clarify the role of the athletic associations and other private organizations.
- c. Define the current relationships of community and civic organizations that utilize Township facilities or provide private facilities for public use.

2. Financial Goals

- a. Recommend a budget system that best suits a Parks and Recreation operation.
- b. Examine whether an increase in spending to make Parks and Recreation service improvements is acceptable to the public.

3. Programming Goals

- a. Recommend program ideas to meet the demand of a growing public.
- b. Study ways to improve informing the public about Township Parks and Recreation facilities and programs.

4. Facility Goals

- a. Analyze whether to acquire land for future community parks.
- b. Study whether trails should be considered for the future.
- c. Evaluate the feasibility of developing a centrally located community/recreation center and outdoor swimming pool.
- d. Recommend playground improvements.

5. Open Space, Greenway and Riparian Buffer Goals

- a. Promote the community's benefits of maintaining and protecting open space. Examine the possibility of developing future greenways throughout the Township.
- b. Investigate the practicality of creating a mandatory land dedication ordinance to assist the development of recreation resources as the population grows.

6. Intergovernmental Cooperation Goals

- a. Examine how to protect the fine relationship with the School District and continued use of shared resources.
- b. Study whether opportunities are practical to pursue joint programming with other agencies.

**D. Planning Process**

1. Community Participation

The Comprehensive Park, Recreation and Open Space Plan incorporates numerous community participation opportunities throughout the planning process. The participation strategy was designed to respond to the specific needs of the community and the Study. Consequently, several types of participation opportunities were integrated into the strategy. The use of various forms of public input helps to define project issues, as well as builds public consent for the Study through the community's direct involvement. These public participation efforts include:

- Study Committee
- Citizen Survey
- Open House and Public Meetings
- Focus Group Work Sessions
- Key Person Interviews

a. Study Committee:

Through a citizen volunteer group established in 2000, the Township consistently involved interested residents in the synthesis, evaluation and refinement of Study. The Committee was responsible for guiding the study's direction, providing some data collection and evaluating Study alternatives provided by the Planning Team. In total the Study Committee met six times throughout the project. Copies of the minutes for each of these meetings are included in the appendix. The Study Committee was comprised of the following citizens, Township Officials and Planning Team Members:

|                   |                                                        |
|-------------------|--------------------------------------------------------|
| Allen Cohen       | North Huntingdon Township Planning and Zoning Director |
| Robert Dippolitto | North Huntingdon Township Police Officer               |
| Richard G. Gray   | North Huntingdon Township Commissioner                 |
| Robert Henry      | At Large Community Member                              |
| David Herold      | North Huntingdon Township Commissioner                 |
| Robert Michaud    | Westmoreland County Recreation Liaison                 |
| Charles O'Donnell | Norwin School Board Director                           |
| Martin Perz       | North Huntingdon Township Recreation Board             |
| Dorothy Richie    | Recreation Board Member                                |
| Keith Staso       | At Large Community Member                              |
| Kate Zingerelli   | Norwin School Board Director                           |

b. Citizens Survey:

In October 2001, the Study Committee and the Planning Team released a Citizen Survey, which was randomly distributed to 2,100 Township households. The number represented 18% of all households, a sample size recommended by experts to provide reliable results. The Citizen Survey was designed to educate the public regarding parks and recreation and to solicit feedback regarding use of current recreation facilities, potential program elements, future park needs as well as the community's commitment to funding future improvements to the park system. The survey was prepared with input from selected "key" persons, the Study Committee, the Commissioners, and staff. The Township received a response from 549 households, which provides the Study Committee and Project Team with a very successful 25.6% response rate. Since most experts regard a return rate of 10% or higher to be statistically valid, the 25.6% return rate provided by the residents of North Huntingdon Township is a sound basis upon which preferences can be determined. Males comprised 49%, while females accounted for 51% of the sampling (to mirror the population). The survey results became a major contributing factor to the final recommendations. A detailed summary of the survey results is provided in the Appendix.

c. Open Houses and Public Meeting:

The Study Committee and the Planning Team hosted two Open Houses/Public Meetings prior to the completion of the "Draft Document." The first meeting was held on September 13, 2001. Although this meeting was the first formal discussion with all Commissioners, several Commissioners attended the Focus Group Sessions as well as participated in the Study Committee meetings. During the first public meeting the Commissioners were briefed on the following issues:

- 1) Project status.
- 2) Results of the Key Person Interviews.
- 3) Review of the draft citizen survey.

- 4) Discussion on whether extra questions related to a pool and recreation center was evaluated by the Commissioners. Ultimately a decision was rendered by Commissioners not to include these questions in the survey.
- 5) Project schedule.

On November 7, 2001, the second Public Open House was held to provide the community with an opportunity to voice their opinion related to the Study. This allowed an opportunity for community residents to provide feedback relating to the existing recreational facilities and the current survey being circulated throughout the Township. The public meetings, organized for the Commissioners and the general public, were designed to answer any specific questions regarding the Study. Additional thoughts and comments as a follow up to the Citizen Survey were also obtained.

Twelve copies of the Draft Plan were forwarded to the Township as well as a digital PDF version of the Plan on January 18<sup>th</sup> 2002 for review and comment. The Draft Plan was distributed to all Commissioners, Administrative Staff and Recreation Board Members. Additionally, the draft was made available for public review at the Township as well as being posted on the Township's web site. A final Public Input Hearing was held on February 14<sup>th</sup>, 2002 to receive citizen input. Copies of the public's comments are included in the Appendix. Improvements, recommendations and implementation strategies were refined based on feedback received from the Commissioners, Township staff and general public to prepare the final Plan.

d. Focus Group Work Session:

In May 2001, the Study Committee and the Planning Team held two Focus Group work sessions with the general public. Due to the large geographic size of the Township, these meetings were held at two differing locations (one at the northeastern end of the Township (Scull Elementary School) and the other at the southwestern end of the Township (Stewartsville Elementary School)).

The two Focus Group Meetings provided the Project Team with the opportunity to discuss the goals and needs of the specific residents within these regions of the Township. An informal survey was distributed to all attendees to solicit input on these recreational goals for the Township as well as parks, programs and sites they currently utilize in the Township and surrounding communities. These early meetings helped to identify interest areas for the study, as well as tested survey questions. The results of their input has been summarized on the charts included in the Appendix.

e. Key Person Interviews:

The Study Committee identified a listing of 25 key community individuals that represent various recreational and civic interests for telephone interviews. Additionally, those selected represented all geographic sections of the Township.

The Project Team and Study Committee created a questionnaire form to be used during each interview. From the feedback received during the Key-Person Interviews, summary charts were created to identify the survey results and provide a brief overview defining the community's attitudes, preferences and "visions" regarding recreation and leisure. The feedback received from these interviews assisted in defining the community wide citizen survey questions, as well as provided input.

A summary of the interviewee responses is summarized in the Appendix.

**E. Recommendations Summary**

Fundamental to the Comprehensive Parks, Recreation and Open Space Plan's success is the specific recommendations established to achieve the Plan's goals. The following summarizes these key recommendations. Detailed descriptions for each recommendation category are further defined in Section V – Recommendations.

1. Administration

- a. Redefine the Recreation Board's responsibilities to implement the Plan's Mission and Goals/Objectives.
- b. Address the current Township parks "identity crisis" by increasing public awareness through the creation of a series of promotional materials, period.
- c. Develop a Parks and Recreation Department to coordinate all recreational and leisure offerings within the Township.
- d. Implement the position of Recreation Director to head the newly formed Parks and Recreation Department.
- e. Move the Parks Division from the Public Works Department into the newly formed Recreation Department.

2. Finance

- a. Implement a sound approach for defining future parks and recreation operation budgeting.
- b. Develop a strategy for pursuing additional funding through grants and private organizations.
- c. Create a capital improvements budget for parks and recreational projects within the overall Township budget.

3. Recreation Programming

- a. Programming should be addressed at two levels. The first level addresses the recreational needs of the general public and the second level provides opportunities for specific age groups.
- b. New programs should be initiated by the Township but only if developed through the new Recreation Director.
- c. The Township should enhance the current programming offered by private organizations by providing joint venture opportunities to expand offerings to the community.
- d. Increase the use of the existing parks by promoting nature programs at parks such as Braddock's Trail or Indian Lake.

4. Maintenance

- a. Develop a long range maintenance plan that addresses the community's needs, existing park conditions, incorporates current available resources and capabilities as well as integrates the Township's priorities for maintaining the park system's image.
- b. Implement a risk management plan, which focuses on methods to reduce frequency, severity and unpredictability of accidents at the Township's Parks.

5. Mandatory Land Dedication and Fee-in-Lieu of Land Dedication

- a. Define a strategy for developing an ordinance requiring developers to dedicate a percentage of open space land to the Township for use in developing recreational spaces to serve these new residential areas.
- b. Prepare criteria for evaluating the acceptability of land parcels based on issues, such as, existing land features, parcel configuration, size, roadway frontage and access to the community.
- c. Provide a means for developers to allocate a fee to the Township to be used to develop an alternative resource rather than dedicating lands for future park development. Define specific values to be applied for calculating required per unit fees.
- d. Identify locations and/or projects to be addressed by the Township with fees allocated in lieu of open space lands.

6. Intergovernmental and Organizational Cooperation

- a. Implement a written Joint Use Agreement between the Township and Norwin School District for public use of the School District properties.
- b. Complement the programs offered by PAL, NCAA and Norwin Soccer by assisting these organizations to further develop athletic facilities on Township owned property.
- c. "Team" with the private organizations to provide additional recreational opportunities to the community through these organizations.
- d. Pursue cooperative recreational efforts with surrounding communities.

7. Parks and Facilities

- a. Address the existing playground safety issues identified in the safety audit.
- b. Redesign the existing playground areas to address the issues identified in the safety audit as well as providing a more cohesive overall playground design.
- c. Pursue the development of walking trails in the larger parks, such as Tinkers Run, Oak Hollow, Lions Park, Hilltop Park and Braddock's Trail Park.
- d. Improve park identification and directional signage as one step to address the "identity crisis" currently experienced within the Township.
- e. Improve accessibility to all parks and define parking areas at each site.
- f. Improve maintenance procedures at the neighborhood parks.
- g. Enhance the existing parks by installing additional landscape plantings as well as buffer existing unsightly elements to create a more aesthetic park setting.
- h. Develop master plans for the larger park sites to identify potential projects and spatial requirements for some parks.
- i. Perform a Feasibility Study to evaluate the potential for developing a Community/Recreation Center and outdoor pool facility within the Township.
- j. Promote the further development of Tinker's Run Park and Hilltop Park to provide additional passive and active recreational opportunities at these larger sites.
- k. Address the geese problem at Indian Lake as well as implement a strategy for shoreline stabilization and lake enhancement.
- l. Provide pet use facilities or amendments to current animal control laws for pets.
- m. Promote the use of the Township's two largest parks to take advantage of the unique recreational offerings provided at each location. Oak Hollow Park offers a diverse recreational experience including passive recreation, active recreation and nature interaction. Braddock's Trail is one of the most unique environmental settings in the region. It's vegetation, wildlife and terrain offers the user a wide range of outdoor experiences differing greatly from other area parks.

8. Capital Improvements

- a. Implement a program to allocate a defined budget amount each year as part of the Recreation Department's Capital Reserve Fund Budget.
- b. Implement a strategy for capital expenditures should be developed and prioritized based on available funding, public need and service to the public.
- c. Divide capital improvements program into three components: short term, medium term and long term.
- d. Initially target a 100% return of revenue on each specific new program offered through the Township. Over time the fee structure for programs should be adjusted to target a 125% return on program costs.

9. Implementation of Recommendations

- a. Implement short term, medium term and long term strategies for Plan development. Critical to the Plan's success will be the implementation of the Short Term Strategies such as the development of a Parks and Recreation Department and employing a Recreation Director.
- b. Implement "On-going" strategies that need to be addressed by the Township. Fees, programs and facilities need to be continually evaluated and changes to these development strategies made based on community needs and recreational trends.

## **II. BACKGROUND CONTEXT**

### **A. Township History**

North Huntingdon Township has a long and dynamic history from its agricultural beginning to coal mining, and now as a residential suburban Pittsburgh community. The brief history that follows illustrates the Township's evolution of employment and land use. This evolution has shaped North Huntingdon's current character and its recreational needs and opportunities.

Europeans originally settled the community's eastern and western landscape. The German settlement was on the east and the Scotch-Irish on the west. The land now known as Irwin geographically divided the settlements into two distinct areas.

The Township of Huntingdon was founded on April 6, 1773. Huntingdon's boundary began at the mouth of Brush Run where it empties into Brush Creek. The boundary went along Byerly's Path to Braddock's Road and then continued to the lines that marked the Townships of Mount Pleasant, Tyrone, and Pitt. Huntingdon was later divided into smaller Townships of North Huntingdon, East Huntingdon, and Sewickley.

Until 1852, when the Pennsylvania Railroad was constructed, North Huntingdon's chief industry was farming. In 1860, North Huntingdon Township was a farming community of 3,000 people. However, because the region's railroads were built to transport coal, the Township's economic focus shifted from farming to mining. Following the railroad's introduction, North Huntingdon became one of the regions leading Townships in the production of bituminous coal for more than three quarters of a century.

The arrival of "King Coal" made a vast and permanent change in North Huntingdon Township. The communities of Irwin, Larimer, Hahntown, Westmoreland City, and others were built near the mines to house incoming laborers. By 1900, over 10,000 people lived in the Township and 1,600 of them worked in the coalmines.

At the conclusion of World War II several national and regional trends began affecting the Township's development patterns. People from the older riverside steel communities such as McKeesport, Glassport and Duquesne in the 1950's moved in mass migrations to North Huntingdon. The Township offered open spaces, less crowding and industrial pollution, and new housing.

This population inflow to North Huntingdon continued into the 1960's. Large subdivisions consisting of smaller residential tracts and roads began to dominate the community's landscape. The developments were primarily clustered near Route 30 and close to existing sewer lines. Federal environmental protection laws

enacted in the 1970's deemed many of the Township's sewer lines and Plants obsolete. The rate of housing development decreased as the community constructed infrastructure improvements.

Along with sewer capacity limitations, the regional economic downturn (particularly with steel) affected development patterns in the 1980's. It was not until the early 1990's that this trend of decline reversed. Today, North Huntingdon continues to experience steady housing growth with more expensive and larger homes being constructed each year.

The Township's economic base has also changed over the years. Coal, the dominant industry at onset of the 1900's, was replaced during the latter part of that century with small manufacturing operations, particularly machining and tool and dye companies. The firms' economic success varied. During the last several decades, the construction of private and public industrial/office developments has increased the number of stable jobs offered in the Township. These parks feature smaller and cleaner operations with more emphasis on business and office services than production.

Commercial development has shifted from the central core (Borough of Irwin) to the Route 30 corridor over the last several decades. Increased traffic on Route 30 and the Township's proximity to the Pennsylvania Turnpike has made the community an attractive location for city commuters.

## 1. Demographics and Economic Profile

### a. Introduction

This section provides comparisons of the Township's population patterns to state, county and regional demographic and economic trends. These trends influence the community's potential for new growth and development. Change in the composition of North Huntingdon's age composition is also evaluated. The changes may indicate the need for new types of public recreational facilities and programs. Finally, the projected population figures for the year 2010 and their impact on the Township are analyzed as part of the needs assessment.

The population statistics are based on U.S. Census Bureau data compiled each decade, population estimates determined by the U.S. Census Bureau on a periodic basis and population projections performed by North Huntingdon Township. The following population information supplements material in North Huntingdon Township's Comprehensive Land Use Plan and U.S. Census Bureau 2000 Census data. The year 2010 population forecasts have been derived from a cohort-survival projection performed by the Township Planning and Zoning Office. The projections are based on

current population, projected birth and death rates, migration and growth patterns.

b. Historical Trends

Table A: Population Trends below shows North Huntingdon's population changes over the last one hundred years. Population increases were most significant between 1950 and 1960. During this time, North Huntingdon welcomed 10,317 new residents. Another significant population increase occurred between 1960 and 1970 when the Township grew 34.7%. Between 1970 and 1980 the population grew more slowly. During the 1980's, North Huntingdon's population began to decrease; by 1990, the Township lost 3,359 residents. This trend reversed during the 1990's; North Huntingdon grew by 965 people, or 3.4%, between 1990 and 2000.

**Table A - Population Trends 1900-2000**

| <b>Year</b> | <b>Population</b> | <b>10-Year Change #</b> | <b>10-Year Change %</b> |
|-------------|-------------------|-------------------------|-------------------------|
| 1900        | 7,438             |                         |                         |
| 1910        | 7,800             | 362                     | 4.9%                    |
| 1920        | 8,360             | 560                     | 7.2%                    |
| 1930        | 9,384             | 1,024                   | 12.2%                   |
| 1940        | 9,642             | 258                     | 2.7%                    |
| 1950        | 11,536            | 1,894                   | 19.6%                   |
| 1960        | 21,853            | 10,317                  | 89.4%                   |
| 1970        | 29,443            | 7,590                   | 34.7%                   |
| 1980        | 31,517            | 2,074                   | 7.0%                    |
| 1990        | 28,158            | -3,359                  | -10.7%                  |
| 2000        | 29,123            | 965                     | 3.4%                    |

c. State and Regional Population Trends

Table B: Comparison of Growth Rates 1960-2000 identifies North Huntingdon Township's population in relation to the State and County. The large population boom of the 1960s slowed, but remained positive. Between 1970 and 1980, the population of Pennsylvania grew by only 63,129 people, representing a little more than a 0.5% increase. Westmoreland County's population grew 4.1%. During the same period, the Township grew 7%. However, between 1980 and 1990, the Township's 10.7% population decline nearly doubled the general decline in Westmoreland County. The County's population loss during the 1980's is

**North Huntingdon Township**  
Comprehensive Park, Recreation and Open Space Plan

largely attributed to widespread unemployment; Pittsburgh's steel industry eliminated nearly 100,000 jobs. The shifting employment base over the last decade has helped to reverse that trend and both the State and Township saw modest population increases while the County remained roughly the same.

**Table B - Comparison of Growth Rates 1960-2000**

| Year | North Huntingdon |        | Westmoreland County |       | Pennsylvania |      |
|------|------------------|--------|---------------------|-------|--------------|------|
|      | population       | %      | population          | %     | population   | %    |
| 1960 | 21,853           |        | 352,629             |       | 11,319,366   |      |
| 1970 | 29,443           | 34.7%  | 376,935             | 6.9%  | 11,800,766   | 4.3% |
| 1980 | 31,517           | 7.0%   | 392,294             | 4.1%  | 11,863,895   | 0.5% |
| 1990 | 28,158           | -10.7% | 370,321             | -5.6% | 11,881,643   | 0.1% |
| 2000 | 29,123           | 3.4%   | 369,993             | -0.1% | 12,281,054   | 3.4% |

Table C: Surrounding Municipalities Population Data 1970-2000 compares the population of the communities in and surrounding North Huntingdon Township and Westmoreland County. Between 1970 and 2000, this "region" experienced a 0.7 population growing from 139,715 to 140,694. During this thirty-year period North Huntingdon lost 320 residents, representing a decrease of 1.1%. During this same time period, Westmoreland County's population decreased 1.8% or by 6,942 persons.

**Table C - Surrounding Municipalities Population Data 1970-2000**

| Area                                                                            | 1970           | 1980           | 1990           | 2000           | 1970 - 1980 % Changes | 1980 - 1990 % Changes | 1990 - 2000 % Changes | 1970 - 2000 % Changes |
|---------------------------------------------------------------------------------|----------------|----------------|----------------|----------------|-----------------------|-----------------------|-----------------------|-----------------------|
| North Huntingdon Twp                                                            | 29,443         | 31,517         | 28,158         | 29,123         | 7.0%                  | -10.7%                | 3.4%                  | -1.1%                 |

d. Race and Gender

Table D: Race and Gender includes information on North Huntingdon Township and Westmoreland County. The Township's racial and gender make-up closely resembles that of the County. North Huntingdon Township is predominately white; in 2000, only 1.2% of the population is reported to be non-white. 0.4% of persons in North Huntingdon Township were listed as being of Hispanic origin in 2000, and there is a larger population of women than men in both the Township and County.

**Table D - Race and Gender (Year 2000)**

| Gender or Race | North Huntingdon Township |               | Westmoreland County |               |

e. Age Composition

The age composition of North Huntingdon Township's and Westmoreland County's population is illustrated in Table E: Age Distribution and Table F: Population Trends of the Young and Elderly.

The percentage of children under 5 years of age in North Huntingdon Township declined from 5.5% in 1990 to 5.3% of the total population in 2000. The Westmoreland County decline over the same time period was even greater, going from 6.0% to 5.2% of the total population. Most strikingly, in 1990 and 2000, the percentage of persons aged 19-24 dropped dramatically in both the Township and County. In 1990, North Huntingdon Township's 2,446 people between the ages of 19 and 24 represented 8.7% of the total population. A decade later, the number of people in that age category declined to 1,170, representing only 4.0% of the total population.

**North Huntingdon Township**  
Comprehensive Park, Recreation and Open Space Plan

Population increases occurred in both the Township and County in the 5-19 year age group and the 45+ year-old population segment. North Huntingdon Township's greatest increase, between 1990 and 2000, occurred in the 65+ year-old group.

Sources: 2000 North Huntingdon Township Comprehensive Plan and the U.S. Census Bureau 2000 Census

Like many municipalities in the area, North Huntingdon has an increasing elderly population (age 65+) and a decreasing younger population (under 18). However, both these trends leveled off during the 1990's; as a result experienced respective increases and decreases were not as large as what the communities experienced between 1980 and 1990. In 2000, the percentage of elderly persons with respect to the total population is still higher in North Huntingdon Township (17.7%) than in the State (15.6%). However, Westmoreland County has an even greater elderly population as a percentage of total population (18.3%). Meanwhile, the dramatic loss of young people (under 19) within North Huntingdon slowed during the 1990's but has still continued to decline. In relation to Westmoreland County and Pennsylvania total youth populations, North Huntingdon Township youth comprised a smaller percentage (21.8%) of the community's total residents in the year 2000.

f. Growth Rates and Population Forecasting

The 2010 population projection shown on Table G: North Huntingdon Township Growth Rates was calculated using a cohort-survival method of projection as part of the 2000 North Huntingdon Township Comprehensive Plan. The 2010 cohort was based on a population of 30,000 for the year 2000. The projection, and its large increase in population relative to current levels, is based on the following factors:

- 1) An increase in women of child-bearing age (younger families) moving into the Township between 1995 – 2000 and the expected continuation of this trend through the year 2010.
- 2) Continual growth of an older population, particularly the 45 to 64 year-old age cohort (baby boomers), throughout the 2000 to 2010 decade.
- 3) A population pyramid with more children and more seniors but less population growth in the middle of the pyramid.
- 4) Increases in new housing (over 1,000 homes built between 1990-2000) and the expected continuation of this trend.

**Table G - North Huntingdon Township**

| Year                      | Population Change |        |
|---------------------------|-------------------|--------|
|                           | #                 | %      |
| 1950-1960                 | 10,317            | 89.4%  |
| 1960-1970                 | 7,590             | 34.7%  |
| 1970-1980                 | 2,074             | 7.0%   |
| 1980-1990                 | -3,359            | -10.6% |
| 1990-2000                 | 965               | 3.4%   |
| 2000-2010<br>(Projection) | 6,072             | 20.8%  |

Sources: 2000 North Huntingdon Township Comprehensive Plan and the U.S. Census Bureau

North Huntingdon’s population, based on current growth trends, birth rates and mortality rates will continue to increase throughout the first decade of the new millennium. The actual amount of this increase will be a function of four major factors:

- 1) The number of new homes being built in the Township during the period 2000-2010.
- 2) The number of children born during 2000-2010, particularly from those families who moved into newly built houses between 1993-1999.
- 3) The migration rate of the population, particularly among women aged 18-24 at the beginning of their childbearing years.
- 4) Any economic upturn or decline that could create significant demand for new housing (upturn) or massive migration (decline) similar to the regional decline of the 1980’s.

It is rational to assume that there will be variations in these factors during the next decade. It is dangerous to assume that all past trends will continue at the same rate, as was done in the Township’s 1974 Comprehensive Plan that projected the Township’s year 2000 population in the range of 45,000 – 56,000 persons. Absent of any of the above-mentioned extremes, and prior to the release of the 2000 U.S. Census data, it was determined for this Plan to utilize an estimated population of 36,000 persons for the year 2010. After analysis had been completed and the 2000 U.S. Census population data was released, a smaller 2010 population figure is possible.

g. Labor Force Status

In North Huntingdon 13,741 persons age 16 and over were in the work force in 1989. This figure includes 862 people listed as unemployed and 24 persons in the Armed Forces. In the County there was a total work force of 170,896 with 12,087 listed as unemployed and 239 persons in the Armed Forces.

The 1990 U.S. Census reports that in 1989 roughly 67% of the working age population in North Huntingdon held occupations in the executive, administrative, professional, sales, administrative support or service fields. In comparison, nearly 64% of the County's working age population held occupations in these fields. Additionally, many more people traveled outside the Township to work than those who both live and work within the Community.

h. Income

In 1989, North Huntingdon income levels were higher than those reported for Westmoreland County. At this time, the Township's median household income, according to the 1990 U.S. Census, was \$32,066. This is well above Westmoreland County's median household income of \$25,736 during the same period.

While new income statistics from the 2000 U.S. Census will not be released until mid-2002, projections from private firms establish trend data by census tract. These sources indicate the household median income for North Huntingdon Township was \$41,187. This estimate varies over the Township with the highest average income levels (\$45,051) being associated with the new developments while the area north of Route 30 (with many older houses and settlements) had the lowest estimate of \$38,891.

i. Poverty Status

Poverty level is an annual figure determined by the Federal Government and is based on the consumer price index. In 1989, the National poverty level for a family of four was \$12,674. According to the 1990 U.S. Census, 1,479 people, or approximately 5% of North Huntingdon's residents, were in families or households with incomes below the poverty level. By contrast, Westmoreland County had 38,992, or nearly 11%, of its residents in families or households with incomes below the poverty level.

j. Educational Attainment

North Huntingdon has a highly educated population, 39% of those residents over 25 years of age have college degrees or some level of college education. This compares with Westmoreland County's population in

which 36% of county residents over 25 have equivalent levels of educational attainment.

**B. Land Use Analysis**

1. Existing Land Use

Figure 1 (graphic available at the Township Office), the Existing Land Use Map illustrates land use information from a base map as prepared by L. Robert Kimball Engineers in 1996, and revised by Glenn Engineering and Associates, Ltd. in 1999, as well as recently approved. The information outlined in this section, including Table 1: Land Use Classifications, was compiled from the 2000 North Huntingdon Township Comprehensive Plan. The Community is comprised of Six (6) general land uses.

**Table 1 - Land Use Classifications**

|                      |                                                                                                |
|----------------------|------------------------------------------------------------------------------------------------|
| Residential          | Single family dwellings, duplexes, townhouses or multifamily units                             |
| Commercial           | Offices, apartments, retail, restaurants, banks, service businesses, gas stations, auto repair |
| Industrial           | Manufacturing (heavy or light)                                                                 |
| Recreation           | Parks, golf courses                                                                            |
| Public / Semi-Public | Publicly-owned lands, municipal buildings, churches, schools, cemeteries, fire halls, etc.     |
| Vacant               | Undeveloped and under-utilized lands                                                           |

a. Land Use Patterns

Table 2: Existing Land Uses, lists the total acreage and the percentage it represents of the total land area for each major land use classification as of 1996. These land use patterns are the result of a variety of factors such as the location of utilities, transportation routes, topography, environmental constraints and zoning.

As of the most recent survey, only 38% of North Huntingdon Township's land area is developed. Most of the Township's development has occurred south of Route 30 in areas serviced by water and sewer. Development on the northern side of Route 30 is not as intense due to the lack of sewer and water service and development constraints posed by steep topography. Approximately 10,847-acres of the Township, or 62% of its total acreage, remains underdeveloped.

**Table 2 - Existing Land Uses, 1996**

| <b>Land Use</b>         | <b>Acres</b> | <b>% of Total Land</b> |
|-------------------------|--------------|------------------------|
| Residential             | 4,403.8      | 25.2%                  |
| Commercial              | 739.1        | 4.2%                   |
| Industrial              | 245.9        | 1.4%                   |
| Public/Semi-public      | 358.5        | 2.1%                   |
| Conservation/Recreation | 878.4        | 5.0%                   |
| Vacant Land             | 10,847.2     | 62.1%                  |
| Total Developed Land    | 6,626.6      | 37.9%                  |
| Total Land              | 17,472.8     | 100.0%                 |

Source: 2000 North Huntingdon Township Comprehensive Plan

North Huntingdon Township is primarily a bedroom community with 25% of the total and over 65% of the built area developed as residential. Approximately 6% of the land area is devoted to commercial or industrial uses. Most commercial development is located along Route 30, a principle east-west thoroughfare. Manufacturing and/or industrial enterprises, which account for less than 2% of the developed land area, occur in the southern part of the Township. A variety of recreational uses, comprising 5% of the total land area, are scattered throughout the Township. Public or semi public uses represent about 2% of the developed land area and are also scattered throughout the Township close to residential neighborhoods. Notably, while the population has not been growing in the last thirty years, there has been a disproportionate loss of open space. Most of the development that has occurred in the Township is immediately adjacent to arterial roads in subdivisions that have used existing road frontage.

## 2. Natural Resources

The natural resources and environmental features within North Huntingdon Township greatly contribute to the aesthetic qualities of the area, the preservation of natural ecosystems, and the Township's development patterns. The Natural Resources Plan – Figure 2, identifies the existing conditions that have impacted the Township's past development patterns and will continue to guide the Township's future development practices.

While natural resources and environmental features are amenities, they can occasionally create constraints to development, particularly if adequate measures are not implemented during development activity. Areas with these features often provide limited development potential due to the existing features as well as State or Federal requirements. These areas are also more regulated through new subdivision ordinance than were previously.

4. Community Facilities

a. Public Schools

North Huntingdon Township is part of the Norwin School District. This District encompasses the three municipalities of North Huntingdon Township, Irwin Borough and North Irwin Borough. Presently, the Norwin system is comprised of six elementary schools, two junior high schools, one senior high school and a central administration building. Approximately 35,700 residents reside in the district's 36 square miles. Presently, there are 2,259 students enrolled in the kindergarten through fifth grade school program. The two middle schools have an enrollment of 1,252 while 1,691 students attend the high school.

Bus transportation is provided to all students in the Norwin School District who live within the areas that are approved for transportation by the Department of Education in Harrisburg. However, kindergarten children are transported only one way because noonday transportation is not provided.

**Table 4 – Area Public Schools, Enrollments and Projections**

| Elementary Schools                      | Enrollment Figures     |         |         | Capacity |

b. Other Educational Institutions

There are five colleges and universities located within 20 miles of the Township. They include Seton Hill College, the University of Pittsburgh in Greensburg, Westmoreland County Community College in Youngwood, Saint Vincent College in Latrobe and Pennsylvania State University in McKeesport. Pre-Schools, private and parochial schools as well as institutions of higher learning located in the North Huntingdon area are listed in the Table 5.

**Table 5 - Area Educational Institutions**

## **C. Township Background**

### 1. Community Facilities and Government

North Huntingdon Township provides the following public services: police protection; emergency communications; public works; zoning and permitting; and parks and recreation. Fire protection is provided by the community's volunteer fire department. Rescue 8 is adjacent to the Town House. Seven fire departments are spread throughout the Township. Township Commissioners govern over the Township's public policies. The Commissioners are elected residents with staggered four (4) year terms. An office staff provides the community's daily administration and public service needs. Currently, the office staff employs the following positions:

- Township Manager;
- Assistant Township Manager;
- Planning and Zoning Director;
- Building Inspector;
- Planner;
- Public Works Director;
- Assistant Public Works Director;
- Police Chief; and
- Administration Department Staff

Presently the workload for Parks and Recreation is shared by several staff members (Assistant Manager, members of Public Works, and clerical for example) as well as Board members.

The Township Commissioners are vested with a broad range of policy-making powers. To assist these elected officials in the formation of public policy and general governance, several Boards and Commissions have been created. These include the following:

- Planning Commission;
- Civil Service Commission;
- Zoning Hearing Board;
- Educational Service Agency;
- Code Hearing Board; and
- Recreation Board.

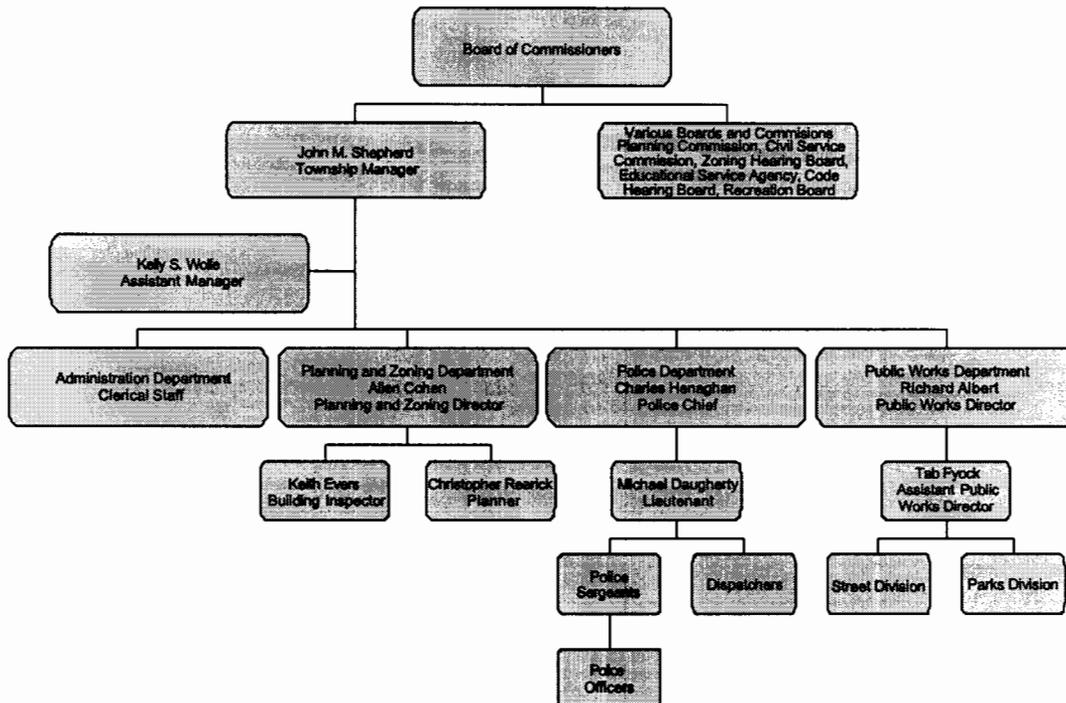

Refer to the Organizational Chart on the following page that identifies the Township's current governmental structure.

a. Recreation Board

The Recreation Board functions in an advisory capacity to determine the amount and kinds of recreation most needed by citizens. The Board currently meets once per month.

They have been active for the past 16 years (since 1986) organizing and coordinating community events as well as the use of Township facilities.

## NHT 2001 Organizational Chart

b. Township Recreation Budget

The Township's 2001 General Fund shows that recreation is responsible for 5.6% (\$373,000) of the expenses and .1% (\$9,000) of the Township's revenue. Detailed information regarding the community's recreation budget is identified in the chart below and provides an overview of the Township's funding over the past five years. It should be noted that the primary expenses incurred by the Township relate specifically to maintenance and building upgrade projects. No additional money has been allocated over the past three years for major park facility upgrades, construction or acquisition of new parklands.

**D. Conclusions**

1. The fact that only 38% of the land is developed in North Huntingdon suggests that the development of the Township's Parks and Recreation resources is still in it's infancy. The Township's current pursuit of a mandatory land dedication ordinance is a timely and worthwhile effort.
2. To address the needs for future residential development programming will need to be provided for all age groups. This suggests that parks will need to be diverse in their recreational offerings to provide a variety for everyone at ultimate build out the population will make this bedroom community one of the largest in the entire Pittsburgh metro area.
3. The 21-acres of wetlands that exists in the Township comprise less than 1% of the Township's total land. Much of these wetlands are protected at some of the larger Township parks such as Oak Hollow Park and Braddock's Trail Park. Additionally, Indian Lake provides a wetland filtering area at the upper end of the lake, which again is a protected site.
4. The abundance of pre-school facilities located need to be approached as for future feedback and joint venturing since the day care and pre-school programs often spend regular time at Township parks and may be willing to pay fees for special uses.

5. The nearby colleges offer several advantages for future recreation programming opportunities.
  - a. Co-sponsored program opportunities benefit both sides.
  - b. Arranging for a Community Night at area colleges occasionally permits local residents to utilize the college recreation facilities (swimming, weight room, basketball facility, etc.) for a nominal fee. This will provide exposure of these facilities to potential future students and their families.
  - c. Another co-sponsored program is to offer special user fees to communities for use of other college facilities during holiday periods (pool, astronomy equipment, library, etc.).
  - d. Colleges may be interested in being part of community events such as parades and festivals.
  - e. Colleges also provide recruitment opportunities for future Township recreation programs. For instance, instructors for special interest programs (fitness, stargazing, and ecology subjects, etc.) can be found among the many instructors at colleges. Recreation leaders for playground programs and day camp programs can be found by recruiting students from nearby colleges.
6. Most staff members who now perform Parks and Recreation work feel ill equipped to do so. They lack the expertise with the field or feel burdened due to time or other responsibilities competing for their attention. They look forward to a professional to fill this void.
7. Township residents earn higher family incomes than the rest of the County. This suggests that the populace may generally be more supportive of reward of life improvements, such as recreation offerings and facilities. The existence of higher incomes has implications for program efforts. Generally higher earning communities are willing to pay for more specialized types of programs (like golf, or investment seminars) in addition to the team sports programs.
8. Most communities devote slightly higher (around 8-10%) amounts of the General Fund to Parks and Recreations.

### III. INVENTORY AND ANALYSIS

#### A. Existing Facilities

The Township presently has a number of recreation facilities, both public and private that serve the community. The Existing Facilities Inventory Map, Figure 3, identifies these facilities and their location. For purposes of planning, they have been categorized as a Neighborhood Park, Community Park, or Conservancy. These facilities have also been designated as being owned by either the Township, Norwin School District or private/non-profit entities. The types of recreation amenities offered at each site are also defined.

##### 1. State/County-Owned Facilities:

There is currently no State or County owned facility located within North Huntingdon Township.

##### 2. Neighboring Communities Parks and Recreation Facilities

These facilities have been identified because they were denoted in the survey as being regularly visited by residents of North Huntingdon Township. For the purposes of this study, they should be considered as resources serving at least some of the recreational demand of North Huntingdon.

##### 3. Township Facilities

North Huntingdon Township owns and operates eleven parks and two undeveloped parcels of land. The Falcon Ridge Property and the Shuster Site are undeveloped sites, which are owned by the Township and could be potentially developed as future Parks and Recreational sites as funding becomes available. Westmoreland City is a ten-year lease agreement. The following identifies the names of the parks as well as the acreage for each Township and privately owned park.

| <b>TOTAL PARK ACREAGE</b> | <b>453.1 ac. (Township and Private)</b> |

a. Lions Park

The 18-acre neighborhood park off McKee Street was donated to the Township in 1974. The park is very flat and low, compared to the adjacent home sites and surrounding hillside. The stone parking lot is uneven and too small to accommodate the ball field. The baseball field is utilized by the Police Athletic League for practices and/or games Monday through Friday evenings and all day Saturday and Sunday. An outdoor basketball court with perimeter fencing, a picnic shelter, and a playground are also located at the site. The playground equipment (8 swings, slide, and climber) is weathered and needs to be replaced, while the sand safety surface for the playground needs to be improved.

b. Oak Hollow Park

The community park includes 127-acres of rolling hills, which comprise some of the higher elevations in the area. In fact, the park is so high that a cell telephone tower is located atop one hill. The park is open for use by the public from 8 a.m. to dusk and was constructed with local, state, and federal funds. Although the park does not receive the highest visitation, it was selected the most under the "occasional visits" category, in the 2001 survey.

The park features include 4 large and 7 small picnic shelters (11 total, with another planned for 2002), a lake, a volleyball court, youth soccer fields, a ball field, an outdoor basketball court, and an older playground that is in the process of being expanded with 5 additional pieces of equipment and safety surfacing. A sand volleyball court is located adjacent to the lower (large) pavilion, and volleyball net and permanent in-ground standards are located adjacent to the playground. The soccer field is fenced on 2 sides due to the adjacent hillside.

**Rescue 8 (Located 25 miles East of the City of Pittsburgh, PA) is North Huntingdon and Sewickley Township's Local Emergency Medical Services System providing Emergency Medical Services (EMS), Non-Emergent Patient Transports, Public Education and Vehicle and Technical Rescue Services.**

In Memory George Laskey, Former President, 1947-2005

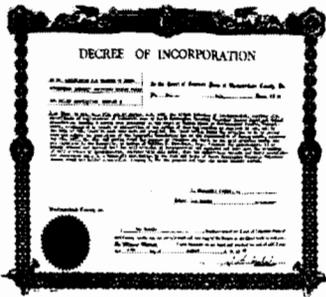

Website best viewed with Internet Explorer at 800 X 600 Screen Resolution

## Rescue 8 History

### In The Beginning

Articles of Incorporation  
August 25, 1961

Prior to established ambulance services in the North Huntingdon, Irwin, and North Irwin Area, local funeral directors (William Snyder, Vincent Rodgers) transported the sick and injured to local hospitals, back then hearses were not only used to transport the deceased but the living as well.

1941 saw the first official ambulance service to the area which was provided by the Irwin Volunteer Fire Department, present day their department still operates and maintains two ambulances.

### Origins of Rescue 8

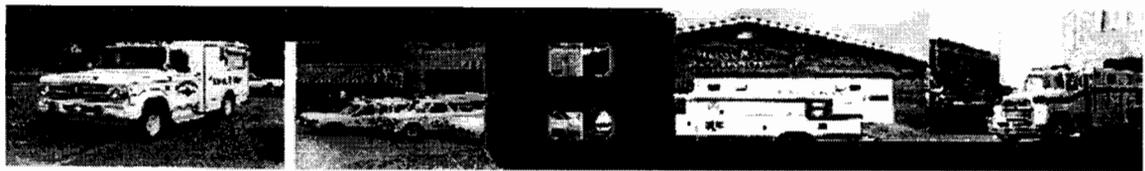

Newspaper Article, Westmoreland  
County Civil Defense News  
February 1961

In the summer of 1959 the funeral directors notified local officials that they would discontinue providing ambulance service on January 1, 1960. The fall of 1959 saw the origins of North Huntingdon Rescue 8. Rescue 8 was molded out of North Huntingdon Township's seven fire companies, it was assigned the company number 8 by the township fire and relief association, it consisted of 50 original members all of whom were fireman. The first officers were, Mike Balko - President, Howard Weber - Vice President, Guy L. Abbot - Secretary-Treasurer, Howard Brant - Captain, Steve Perichak - 1st Lieutenant, Robert Racey - Second Lieutenant, Richard Berger - Sergeant at Arms. Trustees were Ted Colinear, Sante Corona, and Joseph Daniels.

The original members of Rescue 8 had to be fireman because of insurance reasons, when Rescue 8 had enough funds to purchase insurance for ambulance service non-fireman were accepted into Rescue 8.
