

EXHIBIT 2 Statement of Educational Purpose, Objectives and Programming

DESTINY LIFE RESOURCES

Even though Destiny Resources has been incorporated for approximately 1 year it has worked with other ministries and people for many years and has conducted leadership training conferences for over 20 years. Destiny Life Resources and its leadership team have always been educationally oriented. Destiny Life Resources has a focus on training with specific attention on personal development and improvement of individuals.

Destiny Life plans to use the LP-FM facility to reach youth in the area, as well as their parents, using eclectic music and personal affairs programming to further the cause of leadership education. The objective of Destiny Life is to train individuals to excel in all aspects of life including leadership in the family, business, community, and other personal relationships. Our organization is anti-drug, anti-poverty and dedicated to free people from all forms of addictions, including pornography and alcoholism.

Our leadership team is fully capable of producing quality programming for this community. We include music in its art form, that which is not heard in this area. We will include public affairs programming, public service announcements, interview programs, various church services, talk shows, programs regarding promotion of community events and self-help seminars that we will sponsor. We would like to include programs like Focus on the Family with Jim Daley (the entire program & short segments), Turning Point with Dr David Jeremiah, Larry Burkett's How to Manage Your Money and Chuck Swindoll's Insight for Living. Programs such as these, and our own productions, will be a benefit to the community.
