FCC Facility ID 30830

Dear Sir or Madam:

Greater Media Charlotte, Inc, licensee of WBT (AM) Charlotte, NC hereby requests a waiver of section 73.1560(a) of the Commission's Rules to allow implementation of MDCL operation at WBT. The initial operation with MDCL will be via the WBT main transmitter, a Nautel NX-50, which is supplied by the manufacturer with MDCL capability as a standard feature. It is anticipated that WBT will primarily utilize the so called "AMC" algorithm in its MDCL operation although the station may possibly experiment with one or more of the four other algorithms included with NX-50.

Any questions as to the proposed operation of WBT with MDCL may be addressed to the undersigned.

Thank you for your consideration of this request.

Very truly yours,

Milford K. Smith, Jr.
