KSIX(AM), Corpus Christi, Texas  
Facility ID Number: 13964  
Construction Permit: BP-20050613AEP  
as modified by BMP-20060612AAO  
License Application: BL-20081104AGK  
Program Test Authority

Dear Applicant:

This is in reference to the above-captioned license application and to program test authority.

Authority is granted KSIX(AM) to conduct daytime and nighttime program tests in accordance with construction permit BP-20050613AEP as modified by BMP-20060612AAO and Section 73.1620 of the Commission's rules to operate on 1230 kHz with a daytime and nighttime power of 0.72 kilowatts (antenna input current of 1.198 amperes).

A preliminary engineering study of the application reveals that Condition #4 was not fulfilled because some spurious emission measurements were not included. Specifically, you need to amend the application to provide the daytime and nighttime reference fields for the measurements on 1440 kHz (KEYS(AM)) and 1230 kHz (KSIX(AM)), and the daytime and nighttime spurious signals measured on 1650 kHz, 2670 kHz, 3900 kHz and 4110 kHz to show that the emissions are below -71.57 dB for KSIX(AM) and -73 dB for KEYS(AM).

Further action on the subject application will be withheld for sixty (60) days from the date of this letter in order to provide an opportunity to file a curative amendment. Failure to respond or file an amendment within this time period will result in the dismissal of the application pursuant to Section 73.3568 of the rules.

Sincerely,

Son Nguyen  
Supervisory Engineer
