

**APPLICATION FOR AUXILIARY STATION LICENSE**  
**DOUBLE O TEXAS CORPORATION**  
**KKCN (FM) RADIO STATION**  
**CH 276C1 - 103.1 MHZ - 1.9 KW**  
**BALLINGER, TEXAS**  
**April 2006**

**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Double O Texas Corporation ("Double O"), licensee of radio station KKC�, Channel 276C1, Ballinger, Texas. Double O also holds a permit to construct a new auxiliary antenna system for KKC� to be used when the main antenna is out of service (BXPB-20060328AHT). This instant application seeks a license to cover the outstanding auxiliary permit. Attached as Exhibit A, is a calculation of the transmitter power output for the KKC� auxiliary system.<sup>1</sup>

There was one special operating condition or restriction noted on the permit. The condition notes that Double O must reduce power of the facility, in coordination with other users of the site, to allow tower access. Double O herein restates that it will, in cooperation with other tower users, reduce the power of KKC� or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines. Based on the foregoing, it is believed that the conditions on the KKC� permit has been satisfied.

---

1) This facility will replace the existing KKC�-FM1 booster. The booster license will be turned in for cancellation.
