

TV 6 Station Protection

Page 1 of 2

According to 47 C.F.R. § 74.1205(c)(1-3), translators, such as the one being modified herein, are required to protect the TV channel 6's 47 dBu F(50-10) contour from the proposed translator's 54 for channel 201.

The map on page #2 of this exhibit demonstrates that the proposed translator's 54 dBu F(50-10) interference contour does not reach the 47 dBu F(50-50) contour of the licensed TV 6 station WRGB.

Given the lack of interference, a waiver of 47 C.F.R. §74.1205 is relevant.

W201BS vs. WRGB tv6
