

**Exhibit 1**  
**PROPOSED CHANGES TO PENDING LICENSE APPLICATION**

- Section III, Question 2 – Change in operating constants due to replacement of previously specified of omni-directional antenna with new omni-directional antenna.
- Section III, Question 3 – Change from omni-directional Dielectric TFU-20GTH RO4 antenna to new omni-directional Dielectric TFU-20GTH/VP-R O6.
- Section III, Question 5 – Facility was not constructed as authorized in construction permit. Proposed facility will have a different omni-directional antenna with elliptical polarization at a slightly lower center of radiation.
- Section III, Question 8 – Transmitter power output will change due to the replacement of previously specified omni-directional antenna with a new omni-directional antenna.
