

For your use, and in accordance with the *Quapaw Tribe of Oklahoma Communication Tower Consultation Procedures*, we are submitting to you the following: the requested \$75.00 review fee, a copy of the *FCC Form 620*, and a copy of the State Historic Preservation Office response.

As this project is proposed for development in the very near future, we would appreciate receiving your comments within 10 days of receipt of this letter. If you have any questions regarding the proposed development or wish to discuss this project in more detail, please do not hesitate to contact us.

Your assistance is greatly appreciated and we look forward to hearing from you even if you should decide that this project is of no interest to your tribe.

Very truly yours,

Dear Ms. Janssen:

We have reviewed the documentation submitted for the referenced project(s) in accordance with 36 CFR Part 800.4. Based upon the information provided, no historic properties are affected. We, therefore, have no objection to the undertaking proceeding as planned.

Please retain this letter in your files as evidence of compliance with section 106 of the National Historic Preservation Act of 1966, as amended. This clearance remains in effect for two (2) years from date of issuance. It does not pertain to any discovery during construction, nor is it a clearance for purposes of the Illinois Human Skeletal Remains Protection Act (20 ILCS 3440).

If you are an applicant, please submit a copy of this letter to the state or federal agency from which you obtain any permit, license, grant, or other assistance.

Sincerely,

Anne E. Haaker

Subject: RE: TCNS 70480

Based on the information you have provided for TCNS ID **70480** the Quapaw Tribe of Oklahoma has no immediate concerns or issues regarding this project at this time. Please keep me informed if the nature of the project should change.

Since the site is located in an area of historical interest to the Tribe, it is requested that in the event that any human remains and/or funerary objects are discovered that you cease work and contact us immediately.

Dear Virginia M Janssen,

Thank you for using the Federal Communications Commission's (FCC) Tower Construction Notification System (TCNS). The purpose of this email is to inform you that an authorized user of the TCNS has replied to a proposed tower construction notification that you had submitted through the TCNS.

The following message has been sent to you from Historic Preservation Director Johnathan L Buffalo of the Sac & Fox Tribe of the Mississippi in Iowa in reference to Notification ID #70480:

We have no interest in this site. However, if the Applicant discovers archaeological remains or resources during construction, the Applicant should immediately stop construction and notify the appropriate Federal Agency and the Tribe.

For your convenience, the information you submitted for this notification is detailed below.

Subject: Reply to Proposed Tower Structure (Notification ID: 70480) - Email ID #2661184

Dear Virginia M Janssen,

Thank you for using the Federal Communications Commission's (FCC) Tower Construction Notification System (TCNS). The purpose of this email is to inform you that an authorized user of the TCNS has replied to a proposed tower construction notification that you had submitted through the TCNS.

The following message has been sent to you from THPO Kim Jumper of the Shawnee Tribe in reference to Notification ID #70480:

WE HAVE UPDATED OUR PROCEDURES FOR 2008 (EFFECTIVE 1-14-08). PLEASE MAKE SURE THAT YOU HAVE RECEIVED AND READ A COPY OF OUR UPDATED PROCEDURES .

Please use only the following address when sending materials to us:

Please use this fax number to contact us: 918-542-9915. Please do not contact us via e-mail.

SHAWNEE TRIBE
ATT: KIM JUMPER
HISTORIC PRESERVATION DEPT.
29 SOUTH HIGHWAY 69A
MIAMI, OK 74354

The Shawnee Tribe is interested in consulting on this tower, as we are in all towers in this geographic area. Ms. Kim Jumper is our manager for cell tower consultation. Please contact Kim Jumper, Asst. THPO, at 918-542-2441 if you have any questions on this or any other TCNS project.

For this particular tower to which we are responding, please follow our consultation procedures. If this tower is a CO-LOCATION, please fax us and let us know. We cannot always reliably tell from the TCNS web site when a tower is a co-location.

PLEASE, when you are mailing us regarding a cell tower, be sure to put Kim Jumper's name and Historic Preservation Department in the address. If you send any mailing just generally to the Shawnee Tribe, without including the name and department, several days or more may pass before the mailing is properly directed.

In the event that you are building another tower in this state and you did not receive a response from us through the TCNS, it is because the project was omitted from the TCNS web site, as we respond to ALL towers listed in our geographic areas on that web site. We take this opportunity to remind you that, even if a tower has been omitted from the TCNS web site, as occasionally happens, we are still interested in consulting on it.

For your convenience, the information you submitted for this notification is detailed below.

Re: Section 106 Review - Invitation to Comment on Potential Impact
to Sites of Religious and Cultural Importance
New Life Media
WIBI Murphysboro Tower Site
TCNS No. 70480
DEA No. 21011002

Dear Ms. Jumper:

In accordance with the *Nationwide Programmatic Agreement for Review of Effects on Historic Properties for Certain Undertakings*, we are respectfully requesting comment on the proposed telecommunications facility, as it relates to potential impacts on resources of religious and/or cultural importance to your tribe.

Details on the proposed project are presented below.

TCNS No. / Notification Date:	70480 / November 11, 2010
Site Name:	WIBI Murphysboro
Address or Location:	North side of Crane Road
Parcel Number:	09-24-200-009
City, County, State:	DeSoto, Sumerset Township, Jackson County, IL
Latitude / Longitude:	N37-48-59.1, W89-15-57.4
Site Description:	The Site (project area) will be located in an agricultural field and will contain a fenced tower facility and proposed access/utility easements.
Proposed Project Description:	The proposed project will consist of a 125' tall self-support tower and associated equipment to be located within a 65' x 22' fenced compound. The Section 106 Review being conducted includes the assessment of the proposed tower, project area, and proposed access/utility easements.

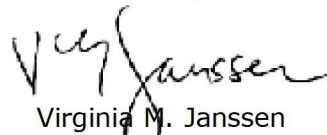

For your use, and in accordance with the *Shawnee Tribe Historic Preservation Department 2008 Cell Tower Consultation Procedures*, we are submitting to you the following: the requested

\$50.00 review fee, a brief project description, a summary of our findings, relevant photographs and maps of the project, and a copy of the State Historic Preservation Office response.

As this project is proposed for development in the very near future, we would appreciate receiving your comments within 10 days of receipt of this letter. If you have any questions regarding the proposed development or wish to discuss this project in more detail, please do not hesitate to contact us.

Your assistance is greatly appreciated and we look forward to hearing from you even if you should decide that this project is of no interest to your tribe.

Very truly yours,

January 26, 2011

Virginia M. Janssen

Dynamic Environmental Associates, Inc.

3850 Lake Street, Suite C

Macon, GA 31204

Dear Ms. Janssen:

We have reviewed the documentation submitted for the referenced project(s) in accordance with 36 CFR Part 800.4. Based upon the information provided, no historic properties are affected. We, therefore, have no objection to the undertaking proceeding as planned.

Please retain this letter in your files as evidence of compliance with section 106 of the National Historic Preservation Act of 1966, as amended. This clearance remains in effect for two (2) years from date of issuance. It does not pertain to any discovery during construction, nor is it a clearance for purposes of the Illinois Human Skeletal Remains Protection Act (20 ILCS 3440).

If you are an applicant, please submit a copy of this letter to the state or federal agency from which you obtain any permit, license, grant, or other assistance.

Sincerely,

Anne E. Haaker

Deputy State Historic

Preservation Officer

ADDITIONAL SITE INFORMATION

New Life Media has proposed to construct a broadcast tower facility in Jackson County, Illinois (Figure 1 and Figure 2). The proposed Site will consist of a 65' x 22' (6.7 x 19.8 m) tower compound area. Within the tower compound area will be a 125' (38.1 m) tall self-support tower and associated equipment. Proposed associated equipment includes a 15' x 12' (4.6 x 3.7 m) transmitter building, a propane tank and emergency generator, and an air conditioning unit. The approximately 15' (4.6 m) wide proposed access easement will extend approximately 165' (50.3 m) north and then east from Crane Road to end at the tower compound area. The approximately 5' wide (1.5 m) proposed utility easement will extend south from the tower compound area approximately 120' (36.6 m) to Crane Road. The direct APE for this project is a total of 0.18 acres.

AREAS OF POTENTIAL EFFECT

APE for Direct Effects

The APE for direct effects is the construction site for the proposed broadcast tower facility, where such construction would result in ground disturbance and dislocation of soil. This area of potential direct effects, determined by an examination of plan maps provided by New Life Media, consists of the 65' x 22' (19.8 x 6.7 m) tower compound area, the proposed 15' x 165' (4.6 x 50.3 m) access easement, and a proposed 5' x 120' (1.5 x 36.6 m) long utility easement.

APE for Visual Effects

The APE for visual effects is the geographic area in which the proposed undertaking has the potential to introduce visual elements that would diminish or alter the setting of any historic property where integrity of setting is a character-defining feature of such property that, in part, makes it eligible for the National Register of Historic Places (National Register). Specifically, this geographic area is the extent to which the proposed broadcast tower would be visible, and if so, would have the potential to introduce visual elements that would alter or diminish the integrity of any historic property's relationship to surrounding features and open space, therefore compromising the ability of such property to convey its historic significance.

In accordance with the Nationwide Programmatic Agreement of March 2005, a one-half mile (.8 km) APE for visual effects is applicable to this 125' (38.1 m) tall broadcast tower (See Figure 4 and Figure 5).
