P. 2

**Statement of Anthony Cuesta**

I, Anthony Cuesta, engineer for KZWY(FM), Sheridan, Wyoming (FCC Facility ID Number 38627, do hereby state with respect to implementing dual-antenna FM IBOC operation for KZWY(FM) that:

- The date that interim operation is planned to commence is 8/21/06.
- It is hereby certified that the KZWY(FM) IBOC facilities conform to the iBiquity hybrid specifications.
- The name and telephone number of a technical representative the Commission can call in the event of interference is Anthony Cuesta, 520-560-7777.
- The transmitter power output for the analog transmitter is 23.0 kilowatts and the transmitter power output for the digital transmitter is 230 watts.
- It is hereby certified that analog effective radiated power remains as authorized.
- It is hereby certified that the interim operation will not cause human exposure to levels of radiofrequency radiation in excess of Section 1.1310 of the Commission's rules and is therefore categorically excluded from environmental processing pursuant to Section 1.1306(b).
- For the auxiliary antenna to be employed, the geographic coordinates are 44-37-20 North Latitude; 107-06-57 West Longitude; the elevation data is 18 meters height of radiation center above ground, 2360 meters height of radiation center above mean sea level, and 348 meters height of radiation center above average terrain; and the license file number for the auxiliary antenna to be employed for digital transmissions is FCC File No. BXLH-20060810AHY
- This will not be a system that employs interleaved antenna bays.

Executed this 28 day of July, 2006 under penalty of perjury.
