

Exhibit 11
VCY America, Inc.
Waiver Request
Wittenberg, Wisconsin

The applicant respectfully requests a waiver of sections §74.793 and §74.794 of the rules concerning the out-of-channel emission mask. Currently, the rules restrict TV translator and LPTV stations to using either a simple or stringent emission mask. The applicant desires to use a full service mask in place of the standard simple or stringent mask.

By granting the requested waivers the public interest, convenience, and necessity will be promoted as the possibility of interference to adjacent stations will be reduced compared to the simple or stringent mask.

The stringent mask was selected in Section III - Engineering Data because the application required that this question be answered, but the applicant desires to use a full service mask in place of the stringent mask.
