Re: Colonial Radio Group (CRG)
WNMB(AM), North Myrtle Beach, SC
Facility Identification Number: 49985
Special Temporary Authority (STA)
BESTA-20180521AAR

Dear Mr. Andrulonis:

This is in reference to the request filed on May 21, 2018. CRG requests an extension of the STA granted on September 14, 2016, to continue operating from an alternate site pending the filing of the required FCC Form 301 application.[1] In support of the request, CRG states that it has retained Graham Brock to assist in the preparation and filing of the application due to loss of the licensed site facility three years ago.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

We noted that the previous STA expired on May 8, 2018, therefore the authority granted will not cover the period between that expiration date and the filing of the instant request, and is without

[1] WNMB(AM) is licensed to operate with two towers on 900 kHz with 0.5 kW (day and night), using the same DA pattern.
